OF HONG KONG

FROM PARIS AGREEMENT TO POST-CARBON CITIES

Approaching
Carbon Neutral

我們的抱負

健康及可持續發展的環境

你我同享

OUR VISION

A healthy and sustainable
environment for all

我們的使命

身為環保先鋒，香港地球之友出謀獻策；
以推動政府、企業和社會，共建可持續發展
並公平合理的環保政策、營商方式和生活形態
為己任，全力保護香港及鄰近地區的環境。

OUR MISSION

Friends of the Earth (HK),
as a leading environmental advocate:

Focuses on protecting our
local and regional environment;

Offers equitable solutions to help
create environmentally sustainable
public policies, business practices and
community lifestyles;

Engages government, business and
community to act responsibly.

2013-2017 蛻變

2013年，是香港地球之友成立30週年，同時開啟了本會的轉型之路。通過推動五大類環境持分者：官、產、學、社、人的共同參與，本會從一個社區工作為本的本地非政府組織，轉型成為具備國際視野的環保組織，致力推動**可持續發展目標**及策劃區域性行動。**五大類環境持分者**帶動的轉型，有賴剛於2017年整合而成立的**五個部門**通力合作，包括：科研及政策、企業社會責任、地球學院、社區教育及聯繫、政策倡議推廣及傳訊。

本會的抱負是「**健康及可持續發展的環境你我同享**」，代表一種「樂活」的生活態度 (LOHAS)。本會以「**樹·酷生活**」旗下的「**樂活十宜**」建立全新形象，正是要突顯我們的抱負。

本會根據對環境影響的嚴重性決定**關注議題**，將會**優先**重點關注：綠色經濟、循環經濟、廢物、能源、海綿城市、都市綠化，當然亦不會忽略重要的空氣、水資源、以及食物。

在**企業管治**方面，本會通過董事局的積極參與，設立職權、守則以及利益衝突指引，以及改善權限表和人事操作守則，達至加強管治。

圖一：聯合國可持續發展目標 Sustainable Development Goals from United Nations

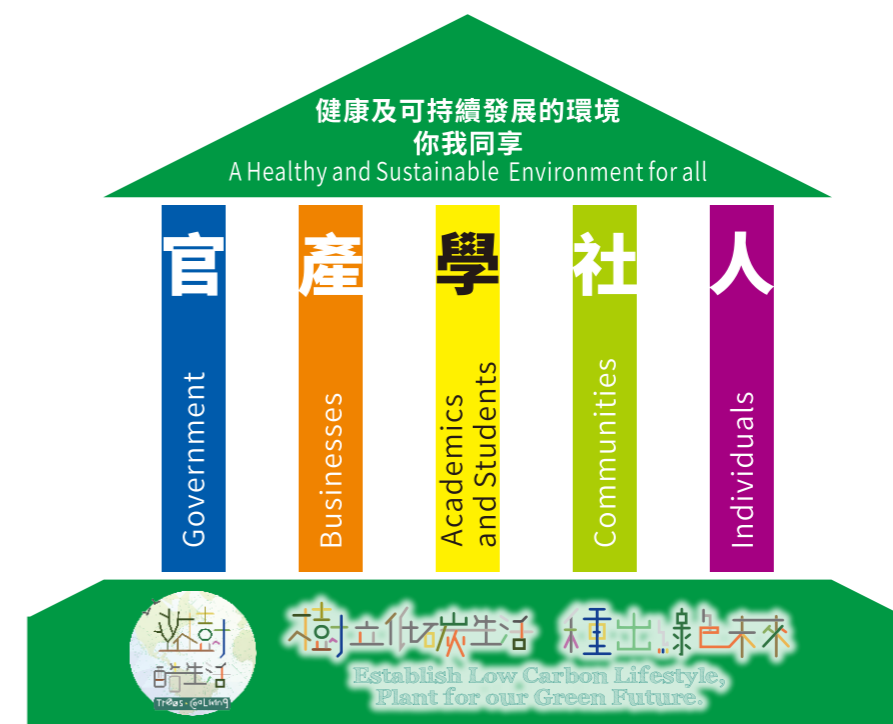

在發展**綠色人力資源**方面，本會全新增設旗艦計劃「**地球學院**」，為本地及國際大學建立與不同行業的連繫，並設立研究及項目為本的學分制實習及孵化計劃供大學生參加。「地球學院」更期望配合國家「一帶一路」政策的機遇，舉辦體驗學習及交流活動，啟發及賦權予學生。

高效倡議：成功及挑戰

2016年，本會最顯注的工作成果乃促使政府訂立減碳目標，以絕對減排量而非與本地生產總值掛鈎的碳強度計算，**2030年之前減碳26%-36%**（見於《香港氣候行動藍圖2030+》）。雖然港政的目標與本會根據國際主要城市訂立的目標-2050年之前減碳80%仍然差距甚遠，但是已標誌著香港踏出重要的一步。此外，港府於2017年作出使用**3-4%可再生能源**的承諾，雖然未達致本會倡議**多於10%可再生能源**的目標，但是相對於2016年使用少於1%已有明顯的進步。

展望未來，政府剛公布與兩電的最新**管制計劃協議**，除了引入上網電價及可再生能源證書，我們相信在碳稅、定價、能源效益、商業模式、高用量抑制式電費制度以及可再生能源政策支援方面，仍有巨大的討論及創新空間。隨著**廢物徵費**政策的推行，本會認為有需要擴大生產者責任制以覆蓋更廣及更深。為了回應塑膠廢物衍生出迫在眉睫的健康及環境危機，我們將會以緊急行動推動循環經濟以務求達至「零廢」。

黃譚智媛 醫生
香港地球之友董事局主席

圖二：抱負與使命 Vision and Mission

EVOLUTION FROM 2013 - 2017

From 2013, our 30th Anniversary, we evolved from a local, community based NGO to one with a global view on the **Sustainable Development Goals** and regional actions via our Mission of engagement of the **five pillars of stakeholders** : Government (官), Businesses (產), Academics and students (學), Communities (社) and Individuals (人). These are supported by **five operational teams** of Research Development & Strategies (RDS), Corporate Social Responsibility (CSR), The Earth Academy (TEA), Community Engagement (CE) and Advocacy Marketing & Communication (AMC), which have all been established by 2017.

Our **Vision of “Healthy & Sustainable Environment for All”** reflects the LOHAS lifestyle which is strengthened in our branding in **Trees·COOLiving** which covers our **10 Dos for LOHAS (樂活十宜)**.

Priorities are set in **Areas of Interest** with the greatest environmental impact: Green Economy, Circular Economy, Waste, Energy, Sponge City and Urban Greening, in addition to the essentials of Air, Water and Food.

Corporate Governance has been strengthened with involvement of Board members and establishment of Terms of Reference, Code of Conduct & Conflict of Interest guidance and strengthening of authorisation matrix, human resources & operational manuals.

Green human capital is being developed via credit bearing internships, in research and project incubation, linking local and international Universities with industry.

- 
- #1 Refuse · Reduce 源頭減廢
 - #2 Recycle · Reuse 循環再用
 - #3 Redesign · Repair 升級再造
 - #4 Order Less · Waste Less 適食 · 惜食
 - #5 Less Meat · More Green 多菜少肉
 - #6 Power Smart 善用能源
 - #7 Drive Less · More Mass Transit 綠色交通
 - #8 Hike · Bike 行路踩單車
 - #9 Urban Farming 都市農業
 - #10 Buy Local · Fair Trade 支持本土 · 公平貿易

圖三：樂活十宜 10 Dos for LOHAS

This opens the door to our new flagship programme, **The Earth Academy**, which aspires to inspire and empower with experiential learning and exchange along the Belt and Road.

FROM IMPACTFUL ADVOCACY SUCCESS TO CHALLENGES

Our most significant achievement in 2016 was in persuading the Government to target absolute carbon reduction instead of carbon intensity which is linked with the GDP. The target of carbon reduction by 26-36% by 2030 (as in Hong Kong’s Climate Action Plan 2030+) is still a long way from the **target of 80% by 2050** we advocated, in line with most major cities around the world. However, it is a great step forward for Hong Kong. Moreover, a change in commitment to renewable energy of 3-4% in 2017 is a marked improvement over the <1% in 2016, but a far cry from the **>10% renewable energy**, we advocated.

With the feed-in tariff and RE certificate in the new Scheme of Control Agreement, there is still ample room for negotiation and innovation in carbon tax, pricing, energy efficiency, business models, tariff disincentives for high consumption and policy support for renewable energy. With introduction of Waste Charging, the Producer Responsibility Schemes need to be widened and deepened. The health and environmental risks of plastics warrant urgent action to **formulate a “zero waste” strategy under Circular Economy**.

Dr. Vivian Taam Wong

Chairperson of the Board of Governors,
Friends of the Earth (HK)

圖四：關注議題 Areas of Interest

香港有義務及責任以行動回應全球可持續發展的挑戰。

香港地球之友舉辦了多次研討會，包括「地球高峰會」、「世界環境日論壇 - 香港零碳之路」和「可再生能源論壇」，促請政府訂立更進取的目標，包括2050年減少碳排放80%，並在2030年採用10%可再生能源。我們更通過參與「香港全球氣候大遊行」、「國家地理頻道 Earth Day Run」以及香港電台「氣候警報21」節目環節系列，向公眾發放有關訊息。

自從2005年以來，本會每年一度舉辦的「知慳惜電」節能比賽已經累積節省263,000,000度電。秉承優良傳統，我們於2016年再接再厲，並延長了比賽時限，突顯養成持續節能習慣的重要性。

為了鼓勵減廢及循環經濟，我們致力推廣「惜物分享，資源再回家」以及「BYOB3 - 自備水樽、外賣餐盒及購物袋」的理念。這兩個理念通過我們舉辦的不同項目，例如「酷企業」、「綠樂無窮在屋邨」、「Green! O Camp」、「救食平台」以及舊衣捐贈計劃，向著商界、屋邨、大學以及個人散播開去。

本會與水務署及香港中文大學賽馬會地球保源行動合辦了第三屆「水論壇」，論壇嘗試探討海綿城市概念與都市規劃的結合，並展示我們保護東江源頭的成果。

本會就著政府施政的不同環保範疇發表意見，例如倡議發展綠色經濟以及棕土優先政策。我們更通過參與各個政府相關委員會、公眾諮詢、給政府官員的公開信、傳媒新聞稿、發表署名文章以及環團聯合行動等，清楚表達我們的訴求，當中包括電子道路收費計劃、保持生物多樣性、可持續消費、向塑膠產品引入生產者責任制、改善空氣質素及供水服務等。

2016年，是我們「全球思考，在地行動」的一年，我們的工作得以順利進行，實有賴合作伙伴、捐款者、會員及義工的共同努力，我向他們獻上衷心的謝意。

張潔儀 女士
香港地球之友行政總裁

HONG KONG has the obligation and responsibility to take action in tackling global sustainability challenges.

We called for the Government to set ambitious targets for carbon reduction (80% by 2050) and renewable energy (10% by 2030) in our public seminars "Earth Day Summit", "Environment Day Forum Hong Kong - Road to Zero Carbon" and "Renewable Energy Forum: Achievable and Affordable". Through our participation in "Hong Kong Global Climate March", "National Geographic Channel's Earth Day Run" and RTHK radio series on COP21, we have spread our message to the public.

Our "Power Smart Energy Saving Contest" had helped saved 263,000,000 units of electricity since 2005. Riding on its success, in 2016 we extended our contest period to stress the importance of consistency in energy conservation efforts.

In promoting waste minimisation and a circular economy, we integrated the concepts of "rehome and reuse resources", "bring your own bottle, box and bag, BYOB3" into our programmes for businesses, housing estates, universities and individuals, such as COOL Corporate, Green Delight in Estates, Green O Camp, Food Donation Alliance and used clothes donations.

Our third Water Forum was co-organised with Water Services Department and CUHK Jockey Club Initiative Gaia. This forum sought to integrate the concept of sponge city into our urban planning, while we continued our preservation efforts at the source of Hong Kong's drinking water, the Dongjiang.

We expressed our views on various environmental issues via our submissions on the policy address, from green economy development to brownfield-first policy. Our call for electronic road pricing, biodiversity conservation, sustainable consumption, and a producer responsibility scheme on plastic bottles, were made in addition to improvements on air quality and water supplies services. Our demands were clearly expressed via representation in different government-related committees, public consultations, open letters to Government officials, press releases, articles and joint actions with our partners.

2016 was our year of action to "think global, act local". I wish to express my sincere thanks to our partners, donors, members and volunteers who make our work possible.

Ms. Suzanne Cheung
CEO, Friends of the Earth (HK)

政策倡議報告 Policy Advocacy Papers

繼往開來！
From Strength to Strength

2014.06 未來發電 燃料組合

本港大部分電力由化石燃料產生，政府就未來發電燃料組合提出兩個方案：從內地輸入電力，或增加使用天然氣。本會向政府遞交報告，建議減少電力需求並增加使用可再生能源。

Future Fuel Mix for Electricity Generation

The majority of electricity in Hong Kong is derived from fossil fuels. The Government presented two options for the fuel mix for electricity generation: import electricity from the Mainland, increase the use of natural gas. FoE(HK) submitted our proposal and suggested to expand the use of renewable energy while reducing electricity demand.

2015.06 電力市場未來發展

隨著管制計劃協議將於 2018 年屆滿，政府於就電力市場的未來發展進行了公眾諮詢。長遠來說，本會認為香港必須減少使用化石燃料，我們建議改革電力市場結構，妥善管理供應及需求。

Future Development of the Electricity Market

With the scheme of control agreement in 2018, the Government had the public consultation the future development of the electricity market. Taking a long-standing view, FoE (HK) believes that Hong Kong must avoid committing itself to a carbon legacy. Our recommendations include electricity market structure reforms, supply side and demand side management.

電子道路收費計劃 2016.03

交通擠塞的情況日益嚴重，多年來汽車的數量不斷增加，影響本港的宜居性、連接性、經濟及空氣質素。政府展開「中環及其鄰近地區電子道路收費先導計劃公眾參與」的公眾諮詢，目的是研究電子道路收費計劃的可行性，以控制香港的交通擠塞和空氣污染。本會樂見政府意識到海外多個城市，包括新加坡、倫敦和哥德堡，已經先後成功推行電子道路收費。因此，我們促請政府盡快於本港推行電子道路收費計劃。

Electronic Road Pricing (ERP)

Traffic congestion is worsening, with the number of vehicles increasing over the years. It affects the liveability, connectivity, economy, and air quality of Hong Kong. The Government has launched a public consultation on "Electronic Road Pricing Pilot Scheme in Central and its Adjacent Areas" to control the problem of traffic congestion and air pollution. FoE(HK) acknowledged the Government's awareness of successful first-movers like Singapore, London and Gothenburg. Thus, we urge the Government to push forward the ERP scheme.

2016.07 氣候變化 持份者參與論壇

氣候變化督導委員會主席林鄭月娥女士主持「氣候變化持份者參與論壇」，發表本港在 12 個領域的成就，但沒有提及香港未來的路線圖。本會就該論壇提出兩項為氣候變化帶來顯著影響的建議：「零碳及零廢城市」與「綠色經濟」。

Climate Change Stakeholder Engagement Forum

Mrs. Carrie Lam, Chairperson of the Steering Committee on Climate Change, chaired the Climate Change Stakeholder Engagement Forum, presenting 12 areas of achievement but little in the way of a roadmap for Hong Kong. In response to this forum, FoE (HK) proposed 2 key approaches: Zero Carbon & Zero Waste City and Green Economy, which will deliver significant and concrete impact on climate change.

2016.04 香港生物多樣性策略及 行動計劃 2016-2021

香港面積雖小，但卻擁有種類豐富的動植物。漁農自然護理署推出了對香港生物多樣性策略及行動計劃 (BSAP) 的公眾諮詢，以保護香港的生物多樣性。本會提交建議，包括保護生態敏感地區、加強環境評估框架、提倡可持續消費等。

Hong Kong Biodiversity Strategy Action Plan 2016-2021

Despite its small size, Hong Kong hosts a rich variety of fauna and flora. The Agriculture, Fisheries and Conservation Department launched the public consultation for its city-level biodiversity strategy and action plan (BSAP) to protect Hong Kong's biodiversity. FoE(HK) addressed issues such as the protection of ecologically-sensitive areas, enhancing the environment assessment framework, sustainable consumption, and more.

2016.11 可持續使用生物資源

在 2016 年，全球在短短八個月內已耗盡了一年的資源。生物資源滿足了人類許多基本需求，包括食物、燃料、原材料、藥物等。人類過度開發及浪費自然資源對生物多樣性造成重大威脅，是導致物種滅絕的成因之一，為此，可持續發展委員會發起了促進可持續使用生物資源的公眾參與活動。本會作出了多項建議，包括如何協助市民作明智選擇、向企業和公眾推廣最佳經營模式和教育公眾。

Sustainable Consumption of Biological Resources

In 2016, the world has used up a year's worth of resources in just eight months. Biological resources provide many essential needs - including food, fuel, raw materials, medicine and more. Unsustainable use and overexploitation of natural resources by human has been a driving force of species extinction and a major threat to biodiversity. The Council for Sustainable Development launched the public engagement exercise for the promotion of sustainable consumption of biological resources. FoE (HK) proposed recommendations on how to facilitate smart choices for people; promote best practices among businesses and the public sector; and educate through public outreach.

論壇及講座 Fora and Seminars

繼往開來！
From Strength to Strength

2014.06 交通論壇

本會舉行交通論壇，集合業界、環團、學者和政府之力，為解決交通擠塞出謀獻策，達至在有限的道路供應上，重置道路使用權，改善公共交通，減少對私家車的依賴。

Transport Forum

With the support from the public transport industry, green groups, academics and government, FoE(HK) formulated the traffic congestion solution in the Transport Forum. With limited space on roads, we need to prioritise to public transport and reduce reliance on private vehicles.

2014.10 「點樣救食？」論壇

本會邀請了英國 FoodCycle、食德好、香港婦女中心協會和環保署的代表，分享社區食物回收工作經驗。超過一百位來自非政府組織、教育界和商界人士參與。

Save Food Forum

Representatives of FoodCycle UK, Food Grace, Hong Kong Federation of Women's Centres and Environmental Protection Department shared experience in community food recycling programmes. More than a hundred participants came from NGO, education and commercial sectors.

2015.06 能源論壇

本會舉辦首次能源論壇，中外學者、業界代表分享其經驗，為香港的可再生能源發展尋找新方向。思匯政策研究所、氣候組織及香港能源服務協會協辦，超過 100 人出席。

Energy Forum

FoE (HK) held its 1st Energy Forum co-organised by the Civic Exchange, the Climate Group and Haesco, over 100 participants attended. Internationally acclaimed professionals, university professors and energy consultants spoke on current and future development of renewable energy.

2015.12 「氣候變化與您」論壇

本會主席黃譚智媛醫生擔任由 ECrent 主辦「氣候變化與您」論壇的演講嘉賓，齊集各國領事代表支持第 21 屆聯合國氣候大會的決議。美國、德國、波蘭、匈牙利、安哥拉、南非、秘魯等駐港領事亦有派代表出席。黃譚智媛醫生認為：「香港需要以絕對溫室氣體排放量為量度單位，去審視本港的減碳計劃。同時，我們應制定與 C40 城市氣候計劃相配的可再生能源目標。公民社會應共同努力，實現更進取及可行的減廢計畫。」

“Climate Change and You” Forum

Chairperson of FoE (HK), Dr. Vivian Wong, was guest speaker in forum “Climate Change and You” organised by ECrent. It gathered many consulate representatives, namely US, Germany, Poland, Hungary, Angola, South Africa and Peru, to show their support for a global agreement in COP21. According to Dr. Vivian Wong, “Hong Kong should review our carbon reduction plans using absolute greenhouse gas (GHG) emission and CO₂ equivalent. In line with C40 cities, we should set comparable renewable energy targets. Civil society should work together to actualise a more ambitious yet realistic waste reduction plan.”

2016.01 COP21 及《巴黎協定》講座

本會與香港中文大學聯手舉辦 COP21 及《巴黎協定》講座，讓一眾學者討論和評估 COP21 及《巴黎協定》對香港及中國的影響。出席講者包括法國駐港總領事 Mr. Eric Berti、環境局副局長陸恭蕙太平紳士及低碳亞洲總裁黎廣德先生。

COP21 and Paris Agreement Seminar

FoE (HK) collaborated with CUHK to organise COP21 and Paris Agreement Seminar to analyse and review the implications of the COP21 and Paris agreement on Hong Kong and China. The speakers included Mr. Eric Berti, The Consul General of France in Hong Kong and Macau; Ms Christine Loh, JP, Under Secretary for the Environment of Environment Bureau; and Ir. Albert Lai, CEO of Carbon Care Asia and Head of HK NGO Delegation to COP21.

2016.04 地球日高峰會 2016

於《巴黎協議》訂立後的首個「世界地球日」，我們與香港公開大學及低碳亞洲聯手舉辦了「地球日高峰會 - 從巴黎協議到後碳城市」，率領各方參考 C40 的減碳方案，討論實現「零碳城市」的藍圖。300 多位政府官員、環保團體代表、商界代表及學者出席，並承諾共同努力減少香港的碳排放量。

Earth Day Summit 2016

On the first Earth Day after the Paris Agreement, FoE (HK), the Open University of Hong Kong and Carbon Care Asia jointly organised “Earth Day Summit 2016 - From Paris Agreement to Post-carbon Cities”, to set out a road map for developing Hong Kong into a zero carbon city based on successful solutions proposed by cities of C40. More than 300 participants, including government officials, green groups, business representatives and academics pledged to reduce carbon emissions.

2016.06 世界環境日論壇

為響應「世界環境日」，本會舉辦「世界環境日論壇——香港零碳之路」，促進有關「零碳零廢」的政策倡議。是次論壇有超過 130 人參加，多位來自環境保護署及消費者委員會的政府官員、行業領袖、學者、諮詢顧問、環保團體及專家出席，就發展「零碳」及可再生能源作出討論。

Environment Day Forum

In response to the Environment Day, FoE (HK) organised the “Environment Day Forum: Hong Kong – Road to Zero Carbon” to promote a “zero carbon and zero waste” vision. Over 130 participants attended the forum. Representatives from the Environmental Protection Department and Consumer Council, industry academics, consultants, green groups, and professional bodies discussed the road map.

2016.08 可再生能源論壇

鑑於發展可再生能源的重要性，本會聯同低碳亞洲及香港公開大學舉辦「可再生能源論壇」探討本地發展可再生能源的可行性。近百人出席了論壇，來自政府部門、商界及社區的持份者，例如環境局副秘書長劉明光先生及首席助理秘書長馬周佩芬女士、電力公司及環保團體的代表等。是次論壇提出了多項理據去支持本港訂立 10% 的可再生能源的電力目標。我們希望透過這活動去推動政府積極響應《巴黎協議》，承諾於 2018 年的《管制計劃協議》中落實上網電價 (Feed-in Tariff)，積極推動本地可再生能源的發展及應對氣候變化帶來的挑戰。

Renewable Energy Forum: Achievable & Affordable

In view of the need for local renewable energy, FoE(HK), Carbon Care Asia and the Open University of Hong Kong jointly organised the “Renewable Energy Forum: Achievable & Affordable” to explore the feasible options of developing renewable energy in Hong Kong. Around a hundred people attended the forum, including stakeholders from the Government, business and civil society, namely Mr. Vincent Liu, Deputy Secretary for the Environment; Ms. Dorothy Ma, Principal Assistant Secretary for the Environment, and representatives of power utilities and green NGOs. The event has successfully demonstrated overwhelming evidence and support for a renewable energy target well above 10%. Through this event, we hope to urge the Government to respond positively to the Paris Agreement and to implement feed-in tariffs for the future 2018 Scheme of Control Agreement to drive local renewable energy generation and tackle climate change.

「酷」Businesses

酷企業

「酷企業」會員計劃於2016年的地球日(4月22日)正式推行。這個專為企業而設的環保計劃是我們實施了十年的

Earth Partner 改革而成。作為「樹·酷生活」系列的一部分，本計劃是轉化意識至態度和行為的改變，提高及改善企業的環保意識、表揚為企業社會責任(CSR)及「環境、社會及管治」(ESG)作出努力的機構。

COOL Corporate

COOL Corporate Membership Scheme was officially launched on Earth Day 2016 (22 April). The new scheme was revamped from the 10-year programme "Earth Partner". As part of the "TreesCOOLiving" series, the scheme seeks to move onward from awareness building to encouraging a change in attitude and practice. It also aims to raise and improve corporates' environmental awareness and recognise their efforts towards enhancing corporate social responsibility (CSR) & environmental, social and governance (ESG) performance.

酷講座系列 - 以 BYOB3 實現零廢

「以 BYOB3 實現零廢」為「酷企業」第一個環保與健康講座，我們很榮幸在是次講座邀請到來自「無塑海洋」、「Tsunami Sport」、「城泉」及「嵐舒」的代表，分享有關塑膠的議題。講座中除了提到海洋塑膠如何影響生態和人類外，更分享了創新的城市飲用水方式，以及企業如何實踐零廢，令參加者在工作場所執行 BYOB3。

COOL Talk Series - Achieving Zero Waste Practices through BYOB3

"Achieving Zero Waste Practices through BYOB3" was the first COOL Corporate Eco-Health Talk. We were honoured to have representatives from "Plastic Free Seas", "Tsunami Sport", "Urban Spring Co., Ltd" and "LUSH Fresh Handmade Cosmetics" as guest speakers, sharing on plastics. Having discussed problems of marine plastics, urban drinking water innovation and corporate best practice in reducing plastics use to the participants, participants are now able to execute BYOB3 in their workplace.

酷講座系列 - 城市耕種

香港與世界上許多城市一樣，屬高度城市化的地方。為了應付人口的增加，各城市均提高了建築密度，導致缺乏綠化空間的問題日益嚴重，影響了城市的可持續發展。城市耕種在近年漸為大眾關注，酷講座邀請了多位支持和推動城市耕種的講者，就推動企業社會責任的角度，分享了多個在社區及企業推行城市耕種的成功個案。

COOL Talk Series - Urban Farming

Like many cities in the world, Hong Kong is a highly urbanised place. In order to cope with the increasing population, cities tended to strive for increasing the density of buildings, resulting in the lack of green area and impacting the sustainable development of the city. Urban farming has been a popular topic in recent years. The talk invited a number of proponents in urban farming as speakers, sharing many successful showcases and application experiences on how to implement the urban farming in different community & organisation businesses in view of corporate social responsibility.

酷綠遊 - 「源·區」

酷綠遊帶同一眾酷企業成員及酷大使參觀了近期熱門的環保設施「源·區」。各位參加者透過導賞活動，對新型的污泥處理設施有透徹的了解。「源·區」透過轉廢為能、海水淡化及污水淨化，令到整個設施可以在較少空氣及水污染的情況下，自給自足地供水供電。

COOL Outing - T·PARK

COOL Corporate and COOL Ambassadors members visited "T.Park" as part of COOL Outing. Through the guided tours, all participants had a deeper understanding of the advanced sludge treatment facilities. Through waste to energy, desalination and purification of water, T-Park is self-sufficient in water and electricity, to export surplus electricity to the public power grid.

酷講座系列 - 素食

「素食」為本年度「酷企業」第三個酷講座主題，活動在 Green Monday 的「綠色素食生活館」舉行。講者除了分享素食心得，教大家如何減少每次用餐的碳足跡外，還分享了一股食物科技熱潮「食物 2.0」，透過分析成千上萬種植物，找出可提取及合併的蛋白質和營養，以尋求更美味及更具營養價值的合成食物。

COOL Talk Series - Spreading Vegetarian Seeds in Corporate Culture

"Vegetarian" was the theme of the 3rd COOL Talk this year. The talk was held in the Veggi Kitchen of Green Monday. The speakers brought a fruitful sharing on various revolutionised veggi experiences, ways to reduce carbon foot-print and shared "FOOD 2.0". "FOOD 2.0" is a new food revolution technology through the analysis of hundreds of thousands of plant species to find out what compounds can be stripped out and recombined to create more delicious and sustainable sources of protein.

Power Smart Energy Saving Contest

FOE (HK) believes that energy conservation is the most effective solution to combat climate change and to create a greener living environment for our future generations. Through the Power Smart Energy Saving Contest, we aim to educate the public at large to have a better understanding on air pollution, climate change, our responsibility in lowering the carbon footprint in our daily life, and encourage both private sector and individual to establish green habits to reduce energy wastage.

The Power Smart Awards Presentation Ceremony 2015 was held in January 2016. Mr. Frank Chan, Director of Electrical and Mechanical Services, was officiating guest. A total of 19 awards were presented in the ceremony, including "School", "Organizations", "Property Management" and Charity Award.

This year, Power Smart was supported by more than 2,600 organisations. During the contest period (July - September), an overall reduction of 6% in electricity consumption was achieved. The 40 million kWh of electricity saved is equivalent to 28,000 tonnes of carbon dioxide.

知慳惜電 節能比賽

香港地球之友深信，應先做好「節能」及謹記「知慳惜電」的用電態度，才能有效應對氣候變化，讓我們及下一代擁有健康美好的環境。透過舉辦「知慳惜電」節能比賽，教育香港市民空氣污染和氣候變化問題，鼓勵個人社會責任實踐低碳生活，家庭、學校、公司機構及各行各業建立良好的用電習慣，從而減低能源消耗對環境的影響。

「知慳惜電節能比賽 2015」頒獎禮已於2016年1月舉行，機電工程署署長陳帆先生擔任主禮嘉賓。頒獎禮共頒發19個獎項，包括「學校組」、「機構組」、「物業管理組」獎項及善心大獎。

2015年度的比賽有超過2,600個用電戶參與，參賽單位於這年比賽期(7-9月)的用電量，比去年同期節省近4,000萬度電，慳電幅度達6%，相等於減少了28,000公噸二氧化碳。

Green! O Camp

《Green! O Camp》計劃鼓勵大學生將環保意識帶到迎新營日程。《Green! O Camp》計劃獲 42 個大專學會支持，有超過 7,500 位大專生參與。總共減少製造：5,000 枝即棄樽裝飲品、逾 8,000 件廢物、超過 1,000 公斤廚餘及 2,800 張 A4 紙。更將 3,000 件剩餘物資回收及轉贈。

Green! O Camp

The "Green! O Camp" project encourages university students to incorporate environment-conscious activities into the orientation camp itinerary. "Green! O Camp 2015" was supported by 42 tertiary student societies and 7,500 students. With their joint efforts, over 5,000 bottled drinks, more than 8,000 pieces of waste items, over 1,000kg of food waste and 2,800 pieces of A4 paper were saved. More than 3,000 pieces of surplus materials were recycled and redistributed.

東江之子

「飲水思源·東江之子」是本會主辦的青年義工活動，至今已經舉辦了十五年，目的是提升珠三角一帶的大學生的環保意識。2016 年暑假，本會招募港粵贛三地大學生成為第十五屆東江之子，前往東江沿岸城市開展生態志願服務。

7 月 15 日-26 日，第十五屆東江之子首先進入東江源村，通過水質測試、生態旅遊地圖繪製、造林生態評估、公益傳播等活動，參與到東江源村的生態保護之中。除此以外，本會還與深圳小鴨嘎嘎合作「思源創想·藝術課堂」為東江源村 80 人次孩子帶來了三天的藝術文化體驗。之後沿東江而下，從尋烏縣城到河源新豐江，一路觀察東江的水文水質變化，瞭解沿岸民俗文化，以及在不同的環境之下所面臨的生態挑戰。

8 月 21 日的後續工作坊在東江的下游城市 - 東莞舉行。除了彙報各工作小組成果以外，當天東江之子參觀了全國最大的人工濕地燕嶺濕地公園，並與流湧尾村社區志願者檢測社區內河湧與東江東莞段流域水質和到訪東江與珠江（獅子洋）匯合點。

從江西正源到廣東的獅子洋匯合點，活動橫跨 562 公里。我們期望參與的義工能夠站在全流域看待東江議題，從最落後的地方到最發達的地方，不斷的思考經濟發展與生態環境之間的平衡點在哪裡，並力所能及地從自己出發 - 感恩、學習、行動、分享。

Sons of Dongjiang

Sons of Dongjiang is a volunteering program that aims to inspire and empower the university students around the Pearl River Delta region in environmental protection. In July 2016, FoE(HK) held the 15th Sons of Dongjiang, bringing 20 university students from Hong Kong, Guangdong and Jiangxi to visit different cities in Dongjiang Basin.

From 15 to 26 July, participants spent their first 6 days in Dongjiang Source Village in Jiangxi Province to carry out various activities such as water quality monitoring, developing Dongjiang Source eco tourism guide and evaluation of afforestation sites. We also partnered with Shenzhen Charity Federation Duck Gaga Fund and held a three-day creative art lesson for the children in the village. We then travelled down along Dongjiang and visited Xunwu City and Heyuan City, experiencing and observing the change of ecological and economical status in different part of Dongjiang Basin.

In the post-trip workshop held on 21 August in Dongguan, a downstream city of Dongjiang, participants visited China's largest constructed wetland, tested the water quality at the downstream of Dongjiang and went all the way to the end of Dongjiang, the confluence of Zhujiang (Pearl River) and Dongjiang.

From the source to the confluence, participants of the 15th Sons of Dongjiang had hopped from the headstream, to midstream, and to downstream of the entire Dongjiang, which runs 562km. This journey along Dongjiang had inspired our participants to ponder upon the true meaning of sustainable development - the balance among economic and social development and environmental conservation. We believe that the participants will live out a lifestyle that gives back to nature.

實習計劃

2016 年，來自 9 所本地及海外大學的 38 名學生參加了本會舉辦的實習計劃，他們在員工帶領下，在廢物管理辦法、都市種植可行性、BYOB3 運動等不同領域進行研究，獲得理論知識及實戰經驗，有助裝備他們成為負責任公民甚至環保專業人士。

Internship Training

In 2016, 38 students from 9 local and international universities joined the internship training organized by FoE(HK). The interns worked closely with our staff and gained practical and theoretical training in areas such as waste management solutions, feasibility of urban farming in Hong Kong, BYOB3. The training nurtured them to contribute in environmental conservation either as responsible citizens or as professionals.

社 Communities

綠星級環保大獎

本會獲邀請出席「綠星級環保大獎 2015」頒獎典禮並擔任頒獎嘉賓。

由 RoadShow 主辦的「綠星級環保大獎」每年舉行一次，目的為向市民宣揚得獎者對推動環保的貢獻，並提升社會各界關注可持續發展。

ECO Star Awards

FoE(HK) was invited as the award presenter at the 'ECO Star Awards 2015' Prize Presentation Ceremony. The RoadShow Media Limited organises the ECO Star Award annually to commend environmental activists and promote public awareness of sustainable environmental protection.

「綠樂無窮在屋邨」

由香港房屋委員會主辦，香港地球之友協辦的第九期「綠樂無窮在屋邨」環保計劃反應理想。為配合「惜物分享，資源再回家」主題，於九個重點屋邨推行了一連串環保教育活動，鼓勵居民源頭減廢、支持資源回收。為鼓勵居民實踐綠色生活，我們舉辦「小修小補工藝市集」、「二手物品交換市集」和「乾淨回收獎勵計劃」等。

當中「再·回家」資源分享箱外觀設計比賽更是重點，收到超過二百份參賽作品，經過評審團的嚴格挑選後，公開組的冠軍作品已成為「再·回家」資源分享箱的外觀圖案設計，在香港 11 個公共屋邨放置。

Green Delight in Estates

The "Green Delight in Estates" Phase 9, organised by Hong Kong Housing Authority and co-organised by FoE (HK), came to a satisfactory close. Intensive environmental education activities were organised in 9 public housing estates under the main theme "Green Living through "Rehome", "Reuse Resources" to raise the residents' awareness on waste reduction through reuse and recycling. Repair & Up-cycle Market, Second-Hand Goods Barter Market and Clean Recycling Programme were also conducted for residents to practise green living.

Rehome Box Cover Design Competition was the highlight in this project. Over 200 entries were received in total and the winner's design had been chosen as the cover of "Rehome Box" and would be placed at 11 public rental housing (PRH) estates in Hong Kong.

為地球而跑！

「2016 國家地理頻道 Earth Day Run」在2016年4月17日舉行。為鼓勵大眾多做運動及關注氣候變化問題，本會十分支持，更衷心感謝國家地理頻道以及一眾跑手的慷慨捐輸。

Run for the Earth!

NGC Earth Day Run 2016 was completed successfully on 17 April 2016. To raise public interest in exercise and awareness of climate change.

FoE(HK) would like to express our sincere gratitude to National Geographic Channel and the runners for their generous donations.

酷大使 COOL Ambassador

「酷大使」計劃是「樹·酷生活」的旗艦項目，旨在提升公眾對環境議題的關注，共同探索、討論並實踐酷生活，對社會產生正面影響。酷大使承諾由個人做起，宣揚環保信息，提升更多人對酷生活的關注，改變生活態度，共同實踐樂活十宜。本會參加了由香港有機資源中心舉辦的「全城有機日 2016」，招募「酷大使」，呼籲更多市民身體力行實踐綠色生活。

COOL Ambassador

COOL Ambassador is an initiative of the "Trees · COOLiving" Programme, a platform for leaders to explore, discuss and take action from the environmental perspective. COOL Ambassadors will carry out 10 Do's in their everyday life, spread the message and encourage others to take action and make the Earth a greener place.

FoE(HK) participated in the HKORC Organic Day 2016 and spread green living messages through recruiting COOL Ambassadors.

香港電台社區參與廣播服務-《地球 COOL 生活》

本會與香港電台的「社區參與廣播服務」合作，製作一連 13 集名為《地球 COOL 生活》的電台節目，加深聽眾對氣候變化的認識，教育大眾社會責任及環保意識。保護環境是每個人的責任，只要大家能夠改變一下自己的生活方式和生活態度，便能保護地球。

RTHK CIBS - "Earth COOL Living"

Partnered with Community Involvement Broadcasting Service (CIBS), FoE (HK)'s "Earth COOL Living" was a radio programme with aims to inform, educate and communicate to the public about the challenges of climate change. The programme consisted of 13 episodes, each episode offered insight and fun facts on topics. Individual could make a difference to save the Earth by changing attitude and practices.

香港生物多樣性節 2016

香港擁有豐富的生物多樣性，怡人的郊野更是近在咫尺。本會作為 40 個合作機構之一，與漁護署合辦了香港生物多樣性節 2016。以「心繫·自然」為主題，為市民提供逾 130 項生物多樣性教育活動，包括生態導賞團、自然工作坊、義工活動等。

Hong Kong Biodiversity Festival 2016

The rich biodiversity of Hong Kong is within easy reach from the city. As one of the 40 organisations, FoE (HK) jointly organised the Hong Kong Biodiversity Festival 2016 with the Agriculture, Fisheries and Conservation Department. Under the theme "Connecting with Nature", over 130 biodiversity education programmes were offered, including eco-tours, nature workshops and volunteer programmes, etc.

China 中國

林地保育

本會於2015年12月，在兩個分別於2013年和2014年種樹的林地上進行了定期的林地保護工作。這兩塊林地位於江西省尋烏縣三標鄉甲子烏村及菖蒲鄉陸肯村。兩塊地分別為200畝和273畝。由經驗豐富的護林人仕帶領村民用了23個工作日完成維護工作，包括除草和施肥。約有40,000棵幼樹得到適當的護理，提高了新樹苗的存活率。

這項工作體現了香港對東江源頭的水保護工作持續重視，以及對當地社區的關注。

Woodland Conservation

FoE(HK) carried out regular woodland conservation work in December 2015 at two sites where we planted trees in 2013 and 2014. The two sites are located at Jia Zi Wu Village in San Biao Town (三標鄉甲子烏村) and Lu Ken Village in Chang Pu Town (菖蒲鄉陸肯村), in Xunwu County, Jiangxi Province. They are 200 mu and 273 mu large respectively. It took 23 working days for the villagers led by an expert to finish the maintenance work, which included weeding and fertilization. About 40,000 young trees got tender care, which resulted in high survival rate afterward.

The work shows FoE(HK)'s continuous concerns on water conservation and preservation at the source of Dongjiang, as well as the care of the local community to protect the environment around the headstream of Dongjiang.

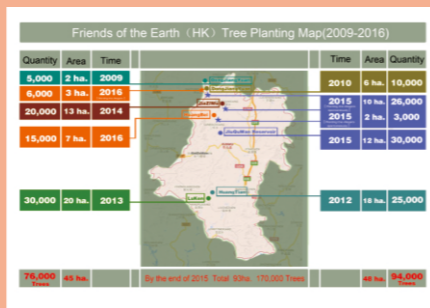

東江源頭植樹計劃

本會於2016年在東江源頭種植樹木，種植時間為二月初至三月初，工作時間約一個月。種植場地是江西省尋烏縣三標村附近的70畝（約5公頃）林地。種植了約15,000棵樹苗，有不同的樹苗種類，以增加種植地點的植物多樣性：

- i. 樟樹
- ii. 楓香樹
- iii. 木荷樹
- iv. 楊梅樹
- v. 紅錐
- vi. 山杜英
- vii. 黎蒴
- viii. 杉木

植樹造林有多種用途，以及保護環境和對當地社區的扶助。自2009年以來，本會在東江源頭的尋烏縣種植了約17萬棵樹木。據唐光大教授（華南農業大學）的評估報告，樹林總共貢獻了240萬元人民幣的生態價值。樹木可以幫助捕水，穩定土壤，吸收二氧化碳和其他空氣污染物，並排放氧氣，以惠及當地居民的環境和健康。種植工作給村民帶來額外的工作機會，增加收入。象徵著基層生態補償給村民，確保在水源附近不做任何污染活動，保持水質整潔。

“Plant a Tree” Programme in the Source of Dongjiang

FoE (HK) continued to plant trees at the source of Dongjiang (East River) in 2016. The planting was carried out from early February to early March, work spanning about one month. The planting site was a 70mu (5 ha approximately) woodland nearby San Biao Village, Xunwu County, Jiangxi Province. About 15,000 tree seedlings have been planted. Different tree seedling species were planted in order to increase the diversity of the planting site:

- i. Camphor tree
- ii. Sweetgum
- iii. Chinese guger tree
- iv. Strawberry tree
- v. Castanopsis Hystrix
- vi. Woodland elaeocarpus
- vii. Chestnut oak
- viii. China fir

Tree planting serves multiple purposes for environmental protection and local community assistance. Since 2009, FoE(HK) has planted about 185,000 trees at Xunwu County, the source of Dongjiang. According to Prof. Tong Guang-da of Southern China Agriculture University, the forest has contributed RMB 2.4 Million in eco-value. Trees can help to catch water, stabilize soils, absorb CO₂ and other air pollutants, and emit O₂ to benefit the environment and health of local residents. The planting work brought opportunities and extra incomes to villagers. This is a form of eco compensation to the water clean and not do any polluted activities nearby.

東原蜜

為了加強江西省尋烏縣東江源村的養蜂能力，本會為東江源村種植花蜜樹並舉行名為「東原蜜」的募款活動，幫助東江源村的村民種植成熟的花蜜樹。2016年4月，義工前往東江源村，向村代表捐款，並與村民一起種植花蜜樹，體驗了偏遠農村的生活環境。感謝捐款者及義工對東江源村環境和社區的貢獻。

Bee Green

We organised a fundraising event for Dongjiang Source Village, named “Bee Green” in Hong Kong for the project in Jiangxi Province. The goal was to strengthen the local apiculture by planting mature nectar trees. In addition, the volunteers went to Dongjiang Source Village in April 2016 to hand in the donation to the representative of the village, and planted nectar trees together with the villagers. It was a vivid experience of life in the remote rural area. We appreciated the donation and contribution to the environment and local community at the source of Dongjiang.

1 綠色經濟 Green Economy

「環境、社會、管治政策」網絡研討會

「企業社會責任」及「環境、社會、管治政策」報告已被全球企業普遍採納。本會行政總裁張潔儀女士獲邀參與由香港中央證券舉行的網絡研討會，向多間上市公司介紹本地可持續發展項目、企業內部的參與經驗、以及由香港交易所提出的「環境、社會、管治政策」報告指引。很多發行人深表興趣，我們獲得良好回饋。

Webinar on Environmental, Social and Governance

With an increasing global trend to focus on Corporate Social Responsibility (CSR), Environmental, Social and Governance (ESG) Reporting has become a common practice for businesses. Computershare Hong Kong invited Ms. Suzanne Cheung, CEO of FoE(HK), to go through an introduction of local sustainability programmes, experience across internal engagement, and ESG Reporting Guide proposed by Hong Kong Exchanges and Clearing Limited. The presentation has aroused great attention from a lot of issuers and good feedback was received.

「良心企業與綠色經濟」論壇

為響應聯合國全球契約，社會企業研究所(SERI)舉辦了「良心企業與綠色經濟」論壇，匯聚來自政府、商界、創新科技界、投資者及非牟利機構代表，交流如何在不斷變化的市場中實踐低碳政策和綠色創新。

本會主席黃譚智媛醫生受邀為講者，就綠色投資的重要性作出分享，內容包括綠色氣候基金、氣候債券和開發銀行等，更鼓勵參加者推動可持續發展技術，例如發展可再生能源。

“Social Responsibility and Green Economy” Forum

Echoing the United Nations Global Compact for sustainable and socially responsible businesses, the Social Enterprise Research Institute (SERI) organised the Social Responsibility and Green Economy Forum, uniting speakers from the private sector, technology developers, investors and NGOs to share their perspectives on how green, low-carbon policies and innovations can be achieved in an evolving market.

Dr. Vivian Wong, Chairperson of FoE(HK), as panel speaker on “How to enhance low-carbon and energy-saving projects”, spoke the importance of green investments such as the Green Climate Fund, Climate Bonds and Development Banks. In particular, how they can drive the development of sustainable technologies like renewable energy.

社會企業責任大獎

本會推動企業社會責任，對於社會健康及環境裨益良多。本會主席黃譚智媛醫生獲邀擔任2015年「資本雜誌及資本壹週社會企業責任大獎」的頒獎嘉賓，表揚一眾企業於制訂業務策略時顧及環境和社會責任。

Corporate Social Responsibility Awards

FoE(HK) encourages corporate social responsibility on the health and environment of society. Dr. Vivian Wong, Chairperson of FoE(HK), was invited to be the award presenter for “CAPITAL & CAPITAL WEEKLY Corporate Social Responsibility Awards 2015”, which recognises and honors enterprises for implementing environmental factors and social commitments into their business strategies.

2 循環經濟 Circular Economy

舊衣回收計劃

本會自2001年起推出舊衣回收計劃，以鼓勵市民捐贈舊衣及支持環保。現時有2個舊衣回收計劃，除了在私人地方放置了約190個本會回收箱，更協助管理民政事務總署轄下約50個回收箱。我們會把部份收集得來的舊衣會捐贈至慈善團體及社福機構，如葵涌醫院、保護遺棄動物協會、基督教香港崇真會、尊善會、非牟利獸醫服務協會、民社服務中心、國際十字路會和鄰舍輔導會等，以幫助有需要的人。

Used Clothes Recycling Programme

"Used Clothes Recycling Programme" has been running since 2001 to encourage the public to donate used clothes in support of environmental protection. Currently, there are two types of clothes collection schemes namely "Community Used Clothes Recycling Bank Scheme" launched by the Home Affairs Department (HAD) and our "Used Clothes Recycling Programme". There are approximately 190 recycle bins placed at the private premises and 50 bins for the HAD. To support the local needy, some of the used clothes were donated to our community partners including Kwai Chung Hospital, Society for Abandoned Animals Limited, Tsung Tsin Mission of Hong Kong, 尊善會, Non-profit making Veterinary Services Society, People Service Centre, Crossroads, The Neighbourhood Advice-Action Council and more.

Suits for Success

自2014年起，本會與Women in Finance Asia (WiFA) 攜手舉辦“Suits for Success”活動，透過收集二手上班服裝，轉贈或以低價發售，以推廣共享經濟。一連3日的活動非常成功，從50間公司收集到超過3公噸的衣物。活動目的是轉贈上班服裝予基層的青年，同時成功轉贈逾1.5公噸舊衣予團體，包括：香港大專商學生聯會、國際經濟學商學生聯合會、香港聖公會東涌綜合服務、基督教香港信義會社會服務部、天資作圍、融藝工房-香港聖公會麥理浩夫人中心、千色服式-樂群社會服務處以及國際十字路會。

Suits for Success

Since 2014, Women in Finance Asia (WiFA) has joined hands with FoE(HK) to launch “Suits for Success” with an aim to facilitate sharing economy by collecting unwanted or unused professional clothing that could then be donated or bought for minimal and affordable prices. The 3-day event was successful with over 3 tonnes of clothing collected from 50 companies. The primary focus is to provide professional wear to underprivileged young adults. Over 1.5 tonnes of clothes were donated to different beneficiaries including Hong Kong Federation of Business Students (HKFBS), Association Internationale des Étudiants en Sciences Économiques et Commerciales (AIESEC), HK Sheng Kung Hui Tung Chung Integrated Services, HK Evangelical Lutheran Church Social Service, 天資作圍 (a Tin Shui Wai Underprivileged Women Association), In-Art WorkStation by HK Sheng Kung Hui Lady MacLehose Centre, Splendid Fashion by Lok Kwan Social Service and Crossroads.

回收計劃

本會致力推動環保回收，鼓勵循環再用。作為「充電池回收計劃」、「慳電膽及光管回收計劃」及「電腦及通訊產品回收計劃」的支持機構，希望大眾透過參與和支持環保活動，共同建立「惜物減廢」的綠色社區。

Recycling Programmes

FoE(HK) is dedicated to promote waste reduction and recycling. As a supporting organisation of “Rechargeable Battery Recycling Program”, “Fluorescent Lamp Recycling Program”, and “Computer & Communication Products Recycling Program”, we strongly encourage all of you to participate in these recycling programs. Let's waste less and build a greener community!

3 廢物 Waste

捐贈塑膠購物袋收費計劃

《全面推行塑膠購物袋收費》已於 2015 年 4 月 1 日實施，除了因食物衛生而獲豁免或特定的情況外，零售商戶向顧客提供塑膠購物袋，需收取每個不少於五毫。本會於法例實施後接受超過十個商戶捐出的塑膠購物袋收費，用於推動社區環保項目。

我們希望透過推廣和教育，改變市民的生活習慣，出門購物自備購物袋 (BYOB)，減少現時每日棄置堆填區的塑膠袋。

Donation from Environmental Levy Scheme on Plastic Shopping Bags

Environmental Levy Scheme on Plastic Shopping Bags (PSB) was fully implemented on 1 April, 2015. Except with exemptions for food hygiene reasons, retailers should charge at least 50 cents for each PSB provided to consumers. After the implementation of the regulation, FoE(HK) received charges donated from over 10 retailers to conduct environmental protection projects in the community. Through proper promotion and education, we hope to change the living habits of the public with the message of "Bring Your Own Bags" (BYOB), and hence reducing the daily disposal rate of PSB into landfill sites.

BYOB3

本會期望增加公眾認識塑膠對環境造成的禍害，以及鼓勵香港人養成 BYOB3 (自備購物袋、自備水樽、自備外賣餐盒) 的生活習慣，發起了名為「撲塑時代」的視覺產品設計以及外展運動，香港理工大學設計學院學生已經做好了運動的前期工作，雙方已簽署同意書，為將來推出購物袋、水樽及外賣餐盒方便 BYOB3 作好了準備。

BYOB3

To increase public awareness of the environmental perils of plastics and induce Hong Kong people to adopt a BYOB3 life-style (bring your own bag, bring your own bottle, bring your own box), a visual product design and outreach campaign called "Plasolution" has been initiated by FoE(HK) and prepared by the students from the School of Design of the Hong Kong Polytechnic University. We signed the mutual agreement and took a step of launching our own BYOB3 products including bag, bottle and box.

月餅環保裝

本會與香港美心月餅攜手呼籲大家響應愛護地球、環保過中秋，鼓勵減少包裝。感謝香港美心月餅的慷慨捐輸，及以減廢推動環保。

Eco-Pack Mooncakes Project

FoE (HK) encourages people to celebrate the festive season in an environmentally-friendly way in support of less packaging. We sincerely thank for the generous donation and appreciate their support to reduce waste and promote sustainability.

從「慢時尚」到「酷生活」

本會主席黃譚智媛醫生應香港理工大學邀請，擔任「從『慢時尚』到『酷生活』」的演講嘉賓，探討香港如何憑環保 7R 原則 - 「資源」、「拒絕排碳」、「源頭減廢」、「重複再用」、「循環再造」、「維修再用」及「升級再造」概念，發展成具創意和活力的「慢時尚」中心。

Slow Fashion, COOL Living

Dr. Vivian Wong, chairperson of FoE(HK), was invited as a guest speaker at the luncheon talk, "Slow Fashion, COOL Living", organised by the Hong Kong Polytechnic University. In this talk, she explored how to develop Hong Kong into an innovative and vibrant "Slow Fashion" centre through practice of 7Rs - Refuse, Reduce, Reuse, Redesign, Repair, Reconstruct & Recycle.

4 能源及氣候變化 Energy and Climate Change

香港全球氣候大遊行

就《聯合國氣候變化框架公約》第 21 次締約方會議 (COP21)，國際非政府組織 350.org 發起了「全球氣候大遊行」，呼籲全球關注氣候問題。「香港 350」亦有響應並舉辦「香港全球氣候大遊行」，遊行主題是「踢走化石燃料，擁抱清潔能源」，路線由中環碼頭至灣仔金紫荊廣場，合共約五百人參與，本會亦積極支持，派出多名代表參與。

Hong Kong Global Climate March

Regarding The 21st session of the Conference of the Parties to the United Nations Framework Convention on Climate Change (COP21), 350.org organised the "Global Climate March" on 29 November to raise public awareness on climate change. 350HK also organised the "Hong Kong Global Climate March" on the same day, with the theme "Turn Off (fossil fuels) and Turn On (renewable and safe, clean energy)". A total of 500 participants walked along the route from Central pier to Golden Bauhinia Square, Wanchai. As a supporter of the Climate March, FoE(HK) sent representatives to participate in the event actively.

「酷大學」項目

「酷大學」為本年度地球之友的試驗項目，內容為利用智能溫度感應器檢查大學課室的空調系統使用是否過剩。本會邀請了近 30 名本地大學生，他們需要攜帶智能溫度感應器到課室上課，為期 10 個上課天，感應器的溫度數據被自動上傳到雲端系統作進一步分析。

"Cool Universities" Project

This pilot project utilised Smart Temperature Sensors to check whether the overuse of air conditioning system in the classroom of university. FoE(HK) invited around 30 student helpers from a local university to carry out the pilot project. Student helpers were required to carry the sensors for 10 school days when they attending lessons in the classrooms. The temperature would be automatically recorded on the cloud system for analysis.

「地球天使 - 微小行動大計劃」啟動禮

為響應教宗方濟各關注氣候問題的呼籲，天主教香港教區《願祢受讚頌》通諭研習小組在太平山山頂舉行「地球天使 - 微小行動大計劃」啟動禮，本會主席黃譚智媛獲邀出席，與鄭生來神父進行了一場關於氣候問題與推動環保的對談。

"Angels on the Earth - Great Plan with Small Action" Launching Ceremony

In response to Pope Francis's appeal to global climate change, Catholic Diocese of Hong Kong held the launching ceremony of "Angels on the Earth - Great Plan with Small Action" at Victoria Peak. Dr. Vivian Wong, Chairperson of FoE(HK), was invited to have a discussion with Rev. Anthony Chang on the climate change and environmental advocacy.

5 海綿城市 Sponge City

水論壇

為響應「世界水日」，本會聯同水務署及香港中文大學賽馬會地球保源行動，於3月22日在香港中文大學合辦「水論壇 2016 - 水資源安全：源起東江 海綿城市」。

水務署署長林天星太平紳士和水資源及供水水質事務諮詢委員會主席陳漢輝博士獲邀出席擔任主禮及開幕嘉賓，多位香港、內地及台灣的水資源及環境研究專家亦有出席，就國家水政策、東江流域上下游發展、未來水資源願景以及海綿城市等與來賓分享了他們的研究結果、經驗，及其真知灼見。

論壇共吸引了學者、政府相關人員、NGO從業者、建築行業人員、學生以及普通市民約兩百人的參與，期間參與者積極向演講嘉賓提問進行互動與交流。

Water Forum

Water Forum 2016 was successfully held on 22 March 2016 – World Water Day in The Chinese University of Hong Kong (CUHK). This year we collaborated with Water Supplies Department and the CUHK Jockey Club Initiative Gaia and titled "Water Forum 2016: Water Security: From Dongjiang to Sponge City."

We were honoured to have Mr Enoch Lam Tin Sing, JP, Director of Water Supplies and Prof. Chan Hon-fai, Chairman of the Advisory Committee on Water Resources and Quality of Water Supplies as our officiating and opening guests. Experts from Hong Kong, Mainland China and Taiwan in the field of water resource management and NGOs had come and shared their visions, insights and experience on how China's water resource policy is evolving, the potential for sustainable development within the Dongjiang Basin, the outlook of water security in Hong Kong and Pearl River Delta region and the possibility of adopting sponge city in Hong Kong.

Water Forum 2016 gathered close to 200 people from the academia, government, NGOs, engineering, education and the general public. It created a platform for them to exchange experiences, knowledge and ideas on how to better sustain our water resource.

欣賞郊野公園日

保衛郊野公園聯盟在12月13日舉行了首屆「欣賞郊野公園日」，主題為保衛郊野公園，鼓勵行山人士自拍打卡表示支持保衛郊野公園，當日有過千行山人士響應活動，分享「#保衛郊野公園」的相片。本會行政總裁張潔儀女士在開幕禮時呼籲大家要珍惜郊野公園。

Country Parks Appreciation Day

With the theme "Save Our Country Parks", the first "Country Parks Appreciation Day" was held by Save Our Country Parks Alliance on 13 December. Over thousands of visitors participated in the event by taking selfies with the tag of "#SaveOurCountryParks" across social media. At the opening ceremony, Ms Suzanne Cheung, our CEO, urged every one of us to cherish country parks.

無車日 2016

本會於2016年9月22日成功舉行「無車日 2016」，超過140間公私營機構及370名市民報名參加，感謝各位踴躍支持，以及支持機構大力推廣！本會已經為所有支持和參與機構於東江源認養樹木，並頒發註有獨特樹木編號的電子證書，以表揚各位在減碳上作出的努力。讓我們繼續「無車」，將香港締造成一個更健康的城市！

No Car Day 2016

On 22 September, FoE (HK) successfully held "No Car Day 2016". More than 140 corporations and 370 individuals pledged to support the "No Car" movement. Thank you for your support! FoE(HK) had adopted trees on behalf of all supporting and participating organisations at the source of Dongjiang. E-certificates with unique tree identification number were issued to recognise their achievement in offsetting carbon. Let's drive less and move for a healthier Hong Kong!

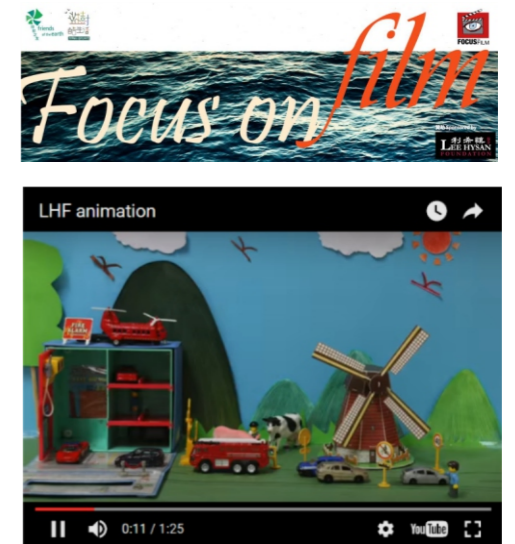

短片製作計劃

本會在利希慎基金的支持下，和 Focus On Film (FoF) 合辦環保短片製作計劃，以提升學生的環保意識。我們為中小學生提供可持續發展議題的課堂，FoF教授電影拍攝技巧，訓練完成後，每間學校提交一條由學生執導的環保短片。學生通過短片拍攝，表達了他們對包括空氣污染及氣候變化等不同環保議題的觀點。

Short Film Project

With the support of Lee Hysan Foundation, FoE(HK) cooperated with Focus On Film (FoF) on a short film project to raise students' awareness on environmental protection. Students of primary and secondary schools received training on sustainability issue from us, together with film making training offered by FoF. After the training, each school submitted a short film produced by the students. The films enabled the students to express their views on various environmental issues, including air pollution and climate change.

8 水 Water

環保漂流 - 力艇流溪嘉年華

為喚起對生活用水的保護意識，本會在廣州參加了流溪嘉年華漂流活動。除了東江之外，廣州市另一淡水來源是流溪河。「珠江水聯合行動」舉辦了一系列活動，喚醒廣州市民認識保護水資源的重要性。活動之一是造船工作坊，使用膠樽製造小型船隻帶出膠樽再用的信息，共超過三十人參加了這次活動。亦有參加者乘坐膠樽造成的船和立式槳板船，從流溪的源頭漂流到中段。通過電視及新聞媒體的報導，有效將節約用水的信息傳播給大眾市民。

Eco Water Drifting at Liuxi River

To arouse the awareness of protection of freshwater source, FoE(HK) joined the Liuxi River Carnival Drifting activities at Guangzhou. Other than Dongjiang, another source of freshwater for Guangzhou cities is Liuxi River. A series of activities had been organised to raise public awareness of the importance of protecting the water resources in Guangzhou. Boat-making workshops were organised, using plastic bottles to make rafts to highlight the reuse of plastic bottles. Over 30 participants joined the event. Some rode on the plastic bottle rafts and standing paddle boards to drift from the headstream of Liuxi to the main stream. The event was covered by TV and press media, broadcasting the message of water conservation.

《洪水來臨前》放映會

氣候變化帶來水平面上升，已令水災威脅近在咫尺。《洪水來臨前》是一套探討氣候變化與水災危機的紀錄片，由奧斯卡金像獎最佳男主角里安納度狄卡比奧主演。里安納度於紀錄片中，以其環保支持者和聯合國和平大使的身份，帶領觀眾前往五大洲和北極，走訪世界最受氣候及水平面上升威脅的區域。《洪水來臨前》亞洲首場特別場放映會已在香港大學舉行，我們榮幸成為支持機構，藉此鼓勵公眾關注氣候變化帶來的潛在水威脅。

Screening of "Before the Flood"

Climate change causes sea level rise and is turning the water around us into a threat. "Before the Flood" is a documentary film about climate change teamed with Academy Award-winning actor, environmental activist and U.N. Messenger of Peace Leonardo DiCaprio to highlight the areas in world most affected right now by climate disturbances and rising sea levels. The first Asia screening of "Before the Flood" was held in Hong Kong University. We were proud to be the supporting organisation of this Special Screening to raise public awareness on the potential threats by climate change on water perspective.

9 食物 Food

救食平台

本會「救食平台 - 食物回收捐助聯盟」提供一個中介平台，連結食物捐贈者和接收者，使有需要人士得到符合安全標準的食物。超過 50 個非政府組織伙伴聯手拯救剩食。

Food Donation Alliance

FoE (HK)'s Food Donation Alliance serves as a platform to match food donors and the need. Saving the surplus and distributing food in safety standard, with joint hands of over 50 NGO members.

校園廚餘精算師培訓計劃

由中華電力主辦、本會協辦的「綠優校園認證計劃 - 校園廚餘精算師培訓計劃」，8 所保良局小學的學生組成廚餘精算師小組一同認識廚餘的種類、數量及產生原因，並製作了不同的惜食方案於校內推行，例如識食海報和標語創作比賽，藉此減少午膳產生的廚餘，並全面探討廚餘問題。是次計劃的經驗和成果已被整合，供家長及教育界參考。

Food Waste Audit Programme

In "Green Elites Campus Accreditation Programme: Food Waste Audit Programme" organised by CLP, the students of 8 Po Leung Kuk primary schools formed food waste auditor teams to find out the weight and types of food waste as well as the reason behind. In order to reduce food waste from school lunch, the food waste auditors provided creative design including food cherishing poster, slogan etc. They have developed a deeper understanding of food waste. Results and experience have been consolidated and shared with parents and education sector.

街市食物回收團

為了讓學生了解香港的食物浪費問題，本會與香港婦女中心協會合作，舉辦「街市食物回收團」。學生於傍晚時份親身到街市收集剩菜及協助分發等工作，了解食物供求問題及可行出路。

Food Angel Tour

FoE(HK) and the Hong Kong Federation of Women's Centres held the "Food Angel Tour (School)". Through the first person's experience in collecting and distributing the unsold food in markets in the evening, students realised the food waste problem and solution in Hong Kong.

管治工作

從企業管治看，2015/16 年度是本會豐盛的一年。我們為董事建立了職權及守則指引，並已經進行檢視令所有委員會的職權達至規範化。

為了確保本會非政治化，已經通過了董事及員工的政治聯繫文件，規定董事及員工不得代表本會作出政治聲明。

最後，更安排了多位董事參加由香港社會服務聯會舉辦的企業管治研討會，以提升他們對於管治以及在《公司條例》下義務的認識。

Governance Works

The 2015/16 is also a fruitful year for Corporate Governance. We have established the term of reference for governors and code of conduct of governors; the term of reference for every committee has been reviewed and standardised.

To reassure the apolitical status of FoE(HK), paper on political association by governors and employees has been passed so that each governor and employee should not make any political statement on behalf of FoE(HK).

Finally, we have arranged governors to attend seminars organised by the Hong Kong Council of Social Services on corporate governance so as to enhance their knowledge in governance and their obligation under the Companies Ordinance.
