### Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20170123	38. Dr Elizabeth QUAT and Dr CHIANG Lai-wan considered that publicity, education and public engagement should form	Misc
----------	--	------

	an integral part in all environmental and conservation strategies.	
20171012	12a. Measures to assist the recycling industry to meet the Mainland's tightened requirements for import recyclables: In connection with the Implementation Plan on Advancing Reform of the Administration System on Import of Solid Wastes through Prohibiting Import of Foreign Rubbish promulgated in July 2017 whereby the Mainland authorities would phase in more stringent requirements on the import of recyclables, <b>Dr CHIANG Lai-wan</b> , Dr Elizabeth QUAT and the Deputy Chairman urged that the Administration should explore measures to assist the recycling industry as local recyclables might not have sufficient market outlets if other countries were also tightening up their national standards for imported waste in future. <b>Dr CHIANG</b> requested the Administration to also look at whether a mechanism for central collection of waste papers could be put in place.	Waste
20171012	12b. Recycling of waste electrical and electronic equipment: <b>Dr CHIANG Lai-wan</b> expressed concern about the lack of measures to support the operation of the recycling industries in the processes of recovery and recycling of waste electrical and electronic equipment (e.g. providing space in the local districts for temporary storage of used electrical appliances for recycling in order to reduce wastage);	Waste

Bills Committee on Waste Disposal (Charging for Municipal Solid Waste) (Amendment)  
Bill 2018

20191218	1. <b>Dr CHIANG</b> considered that the Administration should conduct an opinion poll to further gauge public views on the proposed MSW charging scheme.

Subcommittee on Air Pollution Control (Volatile Organic Compounds) (Amendment)  
Regulation 2017

20171107	1. <b>Dr CHIANG's</b> questions on: (a) the number of companies potentially affected by the new measure to control the volatile organic compounds ("VOC") contents of regulated fountain solutions and regulated printing machine cleaning agents ("newly regulated products");
----------	--

	<p>(b) whether reference had been made to the standards in overseas jurisdictions when proposing to set the VOC content limits for fountain solutions and printing machine cleaning agents at 80 grams/litre ("g/l") and 500 g/l respectively; and</p> <p>(c) whether there were plans to review and further tighten the above prescribed limits (i.e. the VOC content limits for newly regulated products) in future, and/or extend the scope of application of the Air Pollution Control (Volatile Organic Compounds) Regulation (Cap. 311W) to other products to deal with VOC emissions from non-combustion sources.</p>
