Hon KWOK Wai-keung, JP 郭偉强議員

Geographical Constituency - Hong Kong Island The Hong Kong Federation of Trade Unions

Membership in Environmental-related Committees:

- Panel on Environmental Affairs
- Bills Committee on Protection of Endangered Species of Animals and Plants (Amendment) Bill 2017
- Bills Committee on Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill 2018
- Subcommittee on Air Pollution Control (Vehicle Design Standards) (Emission) (Amendment) Regulation 2017
- Subcommittee on Promotion of Recycling and Proper Disposal (Electrical Equipment and Electronic Equipment) (Amendment) Ordinance 2016 (Commencement) Notice 2017 and Product Eco-Responsibility (Regulated Electrical Equipment) Regulation

Voting Record:

8 December 2016: Motion Moved by Hon Chan Han-Pan on "Updating the	
Hong Kong Planning Standards and Guidelines and Increasing Community	Vac
Facilities to Enhance Living Environment" as Amended by Hon Alice Mak,	Yes
Ir Dr Hon Lo Wai-Kwok, Hon Frankie Yick and Hon Andrew Wan	
1 June 2017: Motion on "Promoting 'Hong Kong People Using Hong Kong	Na
Water' and Protecting Local Resources"	No
5 July 2017: Proposed Resolution Moved by Secretary for the Environment	
under the Product Eco-Responsibility Ordinance and the Interpretation	Yes
and General Clauses Ordinance	
16 November 2017: Proposed Resolution under the Energy Efficiency	Vee
(Labelling of Products) Ordinance	Yes
31 January 2018: Protection of Endangered Species of Animals and Plants	Mara
(Amendment) Bill 2017 - Third Reading	Yes
12 April 2018: Motion Moved by Hon Frankie Yick on "Promoting the	
Popularization of Electric Vehicles" as Amended by Hon Kenneth Leung,	Yes
Hon Charles Peter Mok, Ir Dr Hon Lo Wai-Kwok, Hon Yung Hoi-Yan, Hon	105
Chan Hak-Kan and Hon Tanya Chan	

Panel on Environmental Affairs Attendance:

As Member

Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20161128	15. Mr KWOK Wai-keung took the view that as most of the	Waste
	recyclers in the industry were SMEs generally not well versed	
	in dealing with complicated application procedures, the Fund	
	should better cater for these recyclers, lest it might eventually	
	benefit only large corporations with the manpower and	
	resources to prepare for the applications.	
20161128	26. Mr KWOK Wai-keung opined that scientific and	Waste
	technological developments would have far-reaching	
	implications on the recycling industry, yet there was an	
	absence of related projects approved under the Fund. He	
	asked about the Administration's plan to take forward such	
	initiatives, as well as Hong Kong's talent supply in the relevant	
	field.	
20161219	19. Mr KWOK Wai-keung and Mr SHIU Ka-fai pointed out that	Waste
	smallscale fly-tipping of C&D waste in the urban areas,	
	including C&D waste generated from renovation/repair works	
	in domestic flats, often involved dumping from light vehicles.	
	As such, they both considered it necessary to extend the	
	suggested use of GPS to light vehicles and private cars carrying	
	C&D waste.	
20161219	22. Mr KWOK Wai-keung asked if the Administration would	Waste
	install surveillance camera systems at more black spots, and	
	put in place a reporting mechanism for the public to report	
	illegal dumping cases.	

acceptable, Mr KWOK Wai-keung was worried that the increasing number of vehicles in Hong Kong would neutralize the gains from tightening vehicle emission standards. He asked about the Administration's policy and measures, if any, to contain vehicle growth.Wastee2017030326. Mr KWOK Wai-keung suggested the Administration set up a reporting system which offered monetary rewards to encourage the public to report indiscriminate placement of skips, as previously adopted for combating the sale of pirated compact discs. He also considered that the Administration should impose greater control on skips through a licensing or registration system in the longer run.Wastee201703276. Mr CHAN Hak-kan, Mr LEUNG Che-cheung, Mr Kenneth LEUNG, Mr KWOK Wai-keung, Dr Elizabeth QUAT, Mr Martin LIAO, Mr Andrew WAN, Mr CHU Hoi-dick, Mr HO Kai-ming and Mr Kenneth LAU expressed support in principle for the proposed quantity-based MSW charging.Waste2017032718. Mr CHAN Hak-kan, Mr KWOK Wai-keung, Mr Andrew WAN, and Mr HO Kai-ming sought information on the Administration's measures, if any, to relieve people with financial hardship from the burden of MSW charges, such as by granting exemptions/subsidies to the low-income families, elderly persons receiving Old Age Living Allowance and recipients of Comprehensive Social Security Assistance Scheme ("CSSA").Waste2017032722. Mr KWOK Wai-keung and Mr Andrew WAN opined that implementation of MSW charging alone might not necessarily achieve the objective of reducing waste disposal and greater efforts by both the Government and the community to reduce waste at source and recycle waste were necessary. Mr KWOK suggested the Administration enhance the outlets for recyclables, such as turning the recycled food waste into fertilizers fo	20161210	22. 	transport in order to reduce readside emissions	
20170500	transport in order to reduce roadside emissions.	N 4 ¹
20170522	23. Mr KWOK Wai-keung enquired about the Administration's	Misc
	latest approach and measures to control excessive external	
	lighting (which would also reduce emissions from power	
	plants), including the implementation of the Charter Scheme	
	and any plan to introduce legislation to regulate external	
	lighting.	
20171030	55. Mr KWOK Wai-keung welcomed the removal of the bin-	Waste
	counting arrangement from the implementation proposal for	
	MSW charging which would help address the concerns	
	expressed by the waste collection trade. He enquired how the	
	Administration would enhance support for source separation	
	and recovery of domestic waste, including food waste.	
20171030	62. Mr CHAN Hak-kan, Mr Steven HO, Mr SHIU Ka-fai and Mr	Waste
	KWOK Wai-keung expressed concerns that the	
	implementation of MSW charging would aggravate fly-tipping	
	and give rise to charge evasion as well as abuse of litter	
	containers in public places. Mr KWOK sought details of the	
	compliance facilitation measures described in paragraph 12 of	
	the Administration's paper (LC Paper No. CB(1)126/17-	
	18(02)), including whether surveillance cameras would be	
	installed at fly-tipping black spots, and how the	
	Administration would strike a balance between monitoring	
	compliance and privacy protection.	
20180625	11. The Deputy Chairman and Mr KWOK Wai-keung	Air
	supported the implementation of [Cleaner Production	
	Partnership Programme] as they considered that Hong Kong	
	had a duty to contribute to the reduction of pollution in the	
	Pearl River Delta ("PRD") region. While the current phase of	
	CPPP would end in March 2020, Mr KWOK called on the	
	Administration to consult the Panel on the proposed way	
	forward as early as possible.	
20180625	30. Mr KWOK Wai-keung expressed support for the proposals	Air
	to tighten the [indoor air quality (IAQ)] objectives for certain	
	pollutants under the Scheme. However, he objected to the	
	proposed removal of the parameters of room temperature,	
	relative humidity and air movement (collectively referred to	
	as "the three physical parameters"), which were related to the	

	comfort of users of premises, from the IAQ objectives. He	
	sought explanation on the rationale of this proposal.	
20180625	37. Given that only 1,562 premises had been awarded	Air
	certificates under the Scheme and over 600 of them were	
	government agencies, Mr KWOK Wai-keung and Mr HUI Chi-	
	fung expressed disappointment that the Scheme was grossly	
	ineffective in promoting good IAQ management in Hong Kong.	
20180625	41. As premises owners/management should bear the	Air
	responsibility of maintaining a comfortable and hygienic	
	indoor environment for the occupants, Mr KWOK Wai-keung	
	and the Deputy Chairman suggested that the Administration	
	should make it a compulsory requirement for all premises to	
	meet a basic set of IAQ standards through legislative means,	
	conduct random inspections for detecting and rectifying non-	
	compliances, and require routine cleaning of MVAC systems	
	by the relevant premises owners/management.	
20181022	31. Noting that huge amounts of marine refuse had been	Waste
	washed ashore by the storm surges accompanying super	
	typhoons Hato and Mangkhut, Mr KWOK Wai-keung enquired	
	whether the Administration had traced the sources of those	
	marine refuse, and how it would reduce the amount of refuse	
	entering the marine environment.	
20181022	49. Considering that the mode of operation of the Charter on	Misc
	External Lighting was ineffective in controlling excessive	
	external lighting, Mr KWOK Wai-keung and the Deputy	
	Chairman urged the Administration to introduce legislation on	
	light pollution expeditiously. Mr KWOK asked when the	
	review on the effectiveness of the Charter would be	
	completed.	
20181126	32. Drawing on his observations during the Panel's duty visit	Waste
	to the Republic of Korea in 2013, Mr KWOK Wai-keung	
	expected that it would take some time for Hong Kong to catch	
	up with the development of other cities that had already	
	implemented MSW charging, as the success of waste	
	reduction and recycling measures could not be achieved in a	
	blink.	
20181126	38. Mr KWOK Wai-keung said that there was a lack of public	Waste
	understanding on how the Administration would enhance	

support for recycling to tie in with the launch of MSW charging. He suggested that the Administration should expedite the implementation of new measures to promote waste reduction and separation at source.Waste charging.2018112641. re-submission.	20190429	8. Mr KWOK Wai-keung enquired whether the Administration	Waste
		had assisted rejected applicants in refining their proposals for	
20190429 35. Mr KWOK Wai-keung and Mr WU Chi-wai pointed out that Waste		re-submission.	
	20190429	35. Mr KWOK Wai-keung and Mr WU Chi-wai pointed out that	Waste

	construction waste and waste metals accounted for the	
	majority by weight of the recyclables processed by approved	
	projects under the Recycling Fund, and comparatively, the	
	quantities of waste paper and waste plastics processed were	
	quite small. They therefore asked whether the Administration	
	would consider introducing more support measures	
	dedicated for promoting the recycling of waste paper and	
	waste plastics.	
20191028	25. Mr KWOK Wai-keung considered that a legislative	Waste
	approach should be taken in regulating microbead-containing	
	products. He enquired whether the Administration had	
	conducted any study on the concentration of microbeads in	
	Hong Kong waters and the potential impact of microbeads on	
	human health through food chain transfer.	
20191028	57. Mr KWOK Wai-keung expressed disappointment about	Misc
	the delay in the review of the effectiveness of the Charter on	
	External Lighting. He commented that the voluntary approach	
	currently adopted had failed to control nuisance caused by	
	external lighting, as some owners/operators of external	
	lighting installations had persistently ignored public	
	complaints and the Administration's advice.	
20191125	16. Mr KWOK Wai-keung enquired whether any target had	Water
	been set for ecosystem rehabilitation through fisheries	
	enhancement measures in marine parks such as artificial reef	
	deployment and fish fry restocking. He also asked whether	
	such measures could also improve the ecological environment	
	of the waters outside the marine parks.	

Bills Committee on Protection of Endangered Species of Animals and Plants (Amendment) Bill 2017

20170707	1.	Mr KWOK enquired about the monitoring and tracking of the ivory
		stocks in Hong Kong after the total ban in ivory trade in 2021.

Bills Committee on Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill 2018

20181205	1.	Mr KWOK enquired about the expected timings of the launch of
		the free collections services for waste plastics and food waste.
20200317	2.	Mr KWOK asked how the Administration would build public

	-	
		confidence in its ability to combat disposal of non-compliant waste
		("NCW") and fly-tipping after the implementation of the proposed
		MSW charging scheme (if the Bill was passed).
	3.	Mr KWOK asked whether verbatim transcripts could be produced
		for the part of discussion relating to Mr HUI Chifung's views and
		questions on the scrutiny progress of the Bill (001257 – 002459
		refers).
	4.	Mr KWOK expressed concern that the implementation of the
		proposed MSW charging scheme (if the Bill was passed) would lead
		to charge evasion and disposal of NCW in private streets, which
		would aggravate the environmental hygiene problems in some
		private streets that were already plagued with refuse. He enquired
		how the Administration would take enforcement actions against
		NCW disposal in private streets, and whether enhanced measures
		would be put in place to tackle fly-tipping in private streets.
20200421	5.	Mr KWOK expressed views and concerns about:
		(a) the situation of HC's chairmanship election and its impact on
		the legislative process of the Bill;
		(b) street obstruction in North Point caused by the selling of
		second-hand goods by hawkers and scavengers; and
		(c) the absence of regulation of packaging materials.

Subcommittee on Promotion of Recycling and Proper Disposal (Electrical Equipment and Electronic Equipment) (Amendment) Ordinance 2016 (Commencement) Notice 2017 and Product Eco-Responsibility (Regulated Electrical Equipment) Regulation

20170516	1.	Mr KWOK's suggestions to:
		(a) step up public education on reduction and recycling of e-waste;
		(b) ensure protection of personal data contained in abandoned
		computer products (which is a class of ewaste subject to WPRS)
		disposed of and recycled under WPRS; and
		(c) consider including other electronic products such as mobile
		phones as REE in future.
