Hon Kenneth LAU Ip-keung, BBS, MH, JP 劉業強議員

Functional Constituency - Heung Yee Kuk Business and Professionals Alliance for Hong Kong

Membership in Environmental-related Committees:

- Panel on Environmental Affairs
- Bills Committee on Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill 2018
- Subcommittee on Country Parks (Designation) (Consolidation) (Amendment) Order 2017

Voting Record:

8 December 2016: Motion Moved by Hon Chan Han-Pan on "Updating the	
Hong Kong Planning Standards and Guidelines and Increasing Community	
Facilities to Enhance Living Environment" as Amended by Hon Alice Mak,	
Ir Dr Hon Lo Wai-Kwok, Hon Frankie Yick and Hon Andrew Wan	
1 June 2017: Motion on "Promoting 'Hong Kong People Using Hong Kong	
Water' and Protecting Local Resources"	
5 July 2017: Proposed Resolution Moved by Secretary for the Environment	
under the Product Eco-Responsibility Ordinance and the Interpretation	Yes
and General Clauses Ordinance	
16 November 2017: Proposed Resolution under the Energy Efficiency	
(Labelling of Products) Ordinance	
31 January 2018: Protection of Endangered Species of Animals and Plants	Vec
(Amendment) Bill 2017 - Third Reading	Yes
12 April 2018: Motion Moved by Hon Frankie Yick on "Promoting the	
Popularization of Electric Vehicles" as Amended by Hon Kenneth Leung,	Yes
Hon Charles Peter Mok, Ir Dr Hon Lo Wai-Kwok, Hon Yung Hoi-Yan, Hon	
Chan Hak-Kan and Hon Tanya Chan	

Panel on Environmental Affairs Attendance:

Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20170327	6. Mr CHAN Hak-kan, Mr LEUNG Che-cheung, Mr Kenneth	Waste
	LEUNG, Mr KWOK Wai-keung, Dr Elizabeth QUAT, Mr Martin	
	LIAO, Mr Andrew WAN, Mr CHU Hoi-dick, Mr HO Kai-ming and	
	Mr Kenneth LAU expressed support in principle for the	
	proposed quantity-based MSW charging.	
20170327	7. Mr CHAN, Mr Kenneth LAU and Mr SHIU Ka-fai enquired	Waste
	about the measures to be taken by the Administration to	
	complement and enforce the implementation of MSW	
	charging, including the means to identify non-compliant	
	waste producers, and combat fly-tipping on agricultural lands	
	and at rural villages.	
20170327	24. Mr Kenneth LAU and Mr LEUNG Kwok-hung also	Waste
	considered that existing waste recovery and recycling	
	facilities insufficient to support waste reduction.	
20170424	17. Mr Kenneth LAU expressed support for the proposed	Waste
	permanent post and the provision of long-term resources for	
	promoting waste reduction and recycling. Mr LAU urged that	
	the proposed post should steer WRD to step up educational	
	activities on waste reduction in view that, for instance, as	
	much as over 70,000 tonnes of usable electronic products	
	were disposed of at landfills every year.	
20171030	9. Mr Kenneth LAU added that members of the Heung Yee	Climate
	Kuk had been consulted and the majority of them were in	
	support of the installation of such facilities for RE	

 the Administration to improve indoor air quality ("IAQ") and to reduce possible spread of infectious diseases through the indoor air-conditioning systems, in particular at schools and homes for the aged. 20180226 19. Mr Kenneth LAU agreed that the Administration should accord priority to promoting the adoption of EVs by the public transport sector. Mr LAU suggested that the Administration should set a five-year or ten-year target on the number of electric franchised buses to be used in Hong Kong to demonstrate the Administration's commitment in promoting the use of green transport technologies. 20180226 22. Mr Kenneth LAU enquired whether the Administration would encourage self-employed professional drivers to replace their self-owned conventional vehicles with electric ones through PGTF or other incentive schemes. 	
the Administration to improve indoor air quality ("IAQ") and to reduce possible spread of infectious diseases through the indoor air-conditioning systems, in particular at schools and homes for the aged.2018022619. Mr Kenneth LAU agreed that the Administration should accord priority to promoting the adoption of EVs by the public transport sector. Mr LAU suggested that the Administration should set a five-year or ten-year target on the number of electric franchised buses to be used in Hong Kong to demonstrate the Administration's commitment in promoting the use of green transport technologies.Air2018022622. Mr Kenneth LAU enquired whether the Administration would encourage self-employed professional drivers to replace their self-owned conventional vehicles with electric ones through PGTF or other incentive schemes.Air2018032629. Mr SHIU Ka-fai sought details on the penalties against fly- tipping of construction waste in public places, including the number of prosecutions in recent years and the highest fine handed down by the court. Given that the existing fixed penalty under the Fixed Penalty (Public Cleanliness and Obstruction) Ordinance (Cap. 570) was just \$1,500, Mr SHIU considered that free-riders could well afford to take the risk of illegal dumping of construction waste since the penalty cost could be more than compensated by the saving in expenses otherwise incurred for transporting the construction waste to designated reception facilities. He	20171030

expenses otherwise incurred for transporting the construction waste to designated reception facilities. He	
construction waste to designated reception facilities. He	
opined that the Administration should raise the fixed penalty	
to say \$20,000 to appear its determent effect against free	
to, say, \$20,000 to enhance its deterrent effect against free-	
riding. Mr Kenneth LAU shared similar views. 20180423 7. Mr Kenneth LAU said that he supported the Climat	20100422
	20180423
implementation of the FiT Scheme, and Heung Yee Kuk looked forward to the Administration's measures to promote the	
development of solar power systems at buildings in the rural	
areas.	
	20180423
FiT Scheme participant would need to apply for a business	

	registration and file a profits tax return for the income from	
	selling electricity generated by the RE system. They expressed	
	concern that such requirements might hinder members of the	
	public from participating in the Scheme. They urged the	
	Administration to consider exempting individuals	
	participating in the FiT Scheme from the above requirements.	
20180423	23. Mr LEUNG Yiu-chung, Mr HUI Chi-fung and Mr Kenneth	Climate
	LAU expressed concern that the existing regulatory	
	requirements regarding the installation of PV systems on	
	building rooftops, etc. were overly restrictive. A case in point	
	was that the height of a PV system erected on a building	
	rooftop could not be higher than 1.5 m. Mr LEUNG, Mr LAU	
	and the Deputy Chairman enquired whether and when the	
	Administration would relax the relevant requirements with a	
	view to promoting the development of distributed RE. Mr	
	LAU suggested that the same set of regulatory requirements	
	be adopted for the installation of PV systems in small houses	
	and other kinds of village houses.	
20190325	18. Mr Kenneth LAU commended the Administration for its	Air
	successful efforts in improving the overall air quality in Hong	
	Kong for protection of public health. However, he expressed	
	concerns about the high nitrogen dioxide ("NO2")	
	concentration and the rising trend in O3 concentration. He	
	asked about the reasons for the above and new measures (if	
	any) to be implemented to reduce the concentrations of the	
	two pollutants.	
20190325	24. Mr Kenneth LAU asked whether the Administration had	Air
	plans to deepen regional cooperation on improving air quality	
	following the announcement of the Outline Development	
	Plan for the Guangdong-Hong Kong-Macao Greater Bay Area	
	("the Outline Development Plan").	
20190429	18. Dr Elizabeth QUAT, Mr CHAN Hak-kan, Mr Kenneth LAU	Waste
	and Mr Kenneth LEUNG welcomed the proposed introduction	
	of further enhancement measures to the Recycling Fund. In	
	particular, Mr LAU said that he supported the increase in the	
	cumulative maximum funding amount for each recycler under	
	ESP from \$5 million to \$15 million.	
20190429	31. Mr Kenneth LAU suggested that the Administration	Waste

	should further promote recycling in the rural areas and the	
	development of a circular economy through (a) engaging	
	community organizations and green groups in the provision	
	of resource recovery and/or recycling facilities in the	
	community, so as to foster the development of green	
	neighbourhoods; and (b) use new technologies, such as	
	reverse vending machines, to facilitate resource recovery.	
20190527	34. Ir Dr LO Wai-kwok, Mr Tony TSE, Mr Kenneth LAU and Mr	Water
	Martin LIAO expressed support for the proposed [Yuen Long	
	Effluent Polishing Plant]. Mr LAU called on the Administration	
	to minimize the traffic and air quality impacts of the proposed	
	project.	
20190527	40. Mr KWONG Chun-yu and Mr Kenneth LAU were	Water
	concerned whether the proposed YLEPP's effluent discharge	
	would affect the water quality of the oyster culture area in	
	Deep Вау.	
20191125	10. Mr Kenneth LAU noted that during the two-year	Misc
	transitional period before the commercial fishing ban took full	
	effect; permit holders could maintain commercial fishing	
	operations in the four marine parks concerned. As the	
	fisheries industry was facing a difficult operating	
	environment, he asked if the Administration would consider	
	providing a longer transitional period, so as to minimize the	
	economic impact of the proposed commercial fishing ban on	
	affected permit holders.	
20200427	32. Mr Kenneth LAU and Mr Tony TSE also expressed	Waste
	concerns about the environmental hygiene problems in	
	country parks arising from the recent influxes of visitors. Mr	
	LAU urged the Administration to increase the frequency of	
	waste removal services in country parks and enhance public	
	education on keeping country parks clean.	

Subcommittee on Country Parks (Designation) (Consolidation) (Amendment) Order 2017

20171016	1.	Regarding the Administration's consultation work in reviewing and
		assessing the enclaves to be incorporated into country parks, Mr
		Kenneth LAU and Mr CHAN Hak-kan had expressed grave concern
		that the views of Heung Yee Kuk had not been sought during the

Country and Marine Parks Authority ("the Authority")'s
consultation with relevant stakeholders. They were of the view
that relevant developments of enclaves on Government land
would have across the board implication on other enclaves located
on private land in rural areas, the Authority should consult the
Heung Yee Kuk on such important policy issues
