Mr LEUNG Kwok-hung 梁國雄+

Membership in Environmental-related Committees:

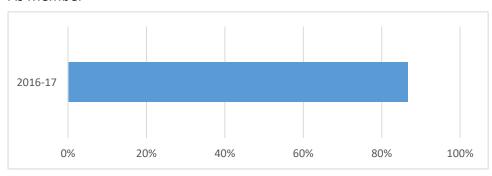

• Panel on Environmental Affairs

Voting Record:

8 December 2016: Motion Moved by Hon Chan Han-Pan on "Updating the	
Hong Kong Planning Standards and Guidelines and Increasing Community	Abstain
Facilities to Enhance Living Environment" as Amended by Hon Alice Mak,	Abstaili
Ir Dr Hon Lo Wai-Kwok, Hon Frankie Yick and Hon Andrew Wan	
1 June 2017: Motion on "Promoting 'Hong Kong People Using Hong Kong	Yes
Water' and Protecting Local Resources"	res
5 July 2017: Proposed Resolution Moved by Secretary for the Environment	
under the Product Eco-Responsibility Ordinance and the Interpretation	Yes
and General Clauses Ordinance	

Panel on Environmental Affairs Attendance:

As Member

Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20161024	23. On Mr LEUNG Kwok-hung's enquiry, DSEN advised that	Climate
	when setting the emission caps under the Sixth TM, the	
	Administration had considered the updated local electricity	
	consumption forecast for 2021. Comparing with the forecast	
	in setting the Fifth TM, the electricity consumption was	
	reduced by around 2.4% and 1.4% respectively for Hong Kong	
	Island, and for Kowloon and the New Territories.	
20161219	44. Mr LEUNG Kwok-hung asked how EPD monitored vehicle	Air
	emissions and ensured compliance with the statutory	

Department ("TD") should incorporate NOx emission test in the annual vehicle examination. 20170224 10. Mr LEUNG Kwok-hung cautioned that premature implementation of the new emission standards would lead to a surge in demand for Euro VI vehicles and drive up the prices of such vehicles, which would be detrimental to the operation and survival of the trades. 20170227 26. Dr Fernando CHEUNG and Mr LEUNG Kwok-hung supported reducing the FRT concession for electric private cars while maintaining the full waiver for electric commercial vehicles.		standards.	
the annual vehicle examination. 20170224 10. Mr LEUNG Kwok-hung cautioned that premature implementation of the new emission standards would lead to a surge in demand for Euro VI vehicles and drive up the prices of such vehicles, which would be detrimental to the operation and survival of the trades. 20170227 26. Dr Fernando CHEUNG and Mr LEUNG Kwok-hung supported reducing the FRT concession for electric private cars while maintaining the full waiver for electric commercial vehicles. 20170227 42. Dr Fernando CHEUNG and Mr LEUNG Kwok-hung said that they did not support the motion [to maintain the existing arrangement of waiving the first registration tax for electric private cars], as they considered that the full FRT waiver had been abused on the purchase of luxury EVs in the past. 20170327 24. Mr Kenneth LAU and Mr LEUNG Kwok-hung also considered that existing waste recovery and recycling facilities insufficient to support waste reduction. Mr LEUNG Kwok-hung and Mr Nathan LAW further queried whether the recyclables collected at [recycling bins] were indeed reused or recycled eventually. 20170424 29. Mr LEUNG Kwok-hung enquired about the measures for reuse of rainwater and production of reclaimed water from sewage. Making reference to Singapore, he considered that rainwater harvesting system ("RHS") and underground storage system could be used to collect and reuse rainwater. 20170529 6. Dr YIU and Mr LEUNG Kwok-hung enquired whether the Administration would make public the statistics collected from roadside AQMSs and install devices such as microsensors for enhancing measurement of air pollutants. Air	20161219	46. Mr LEUNG Kwok-hung considered that the Transport	Air

	ming enquired about the Administration's measures, if any, to	
	promote cycling as a mode of green transport in order to	
	reduce roadside emissions. Mr LEUNG Kwok-hung opined	
	that ENB should explain to THB from the environmental	
	protection perspective the importance of promoting cycling	
	as a mode of transport and conduct the relevant trials.	
20170522	60. Mr LEUNG Kwok-hung expressed grave concern about the	Climate
	safety of using nuclear power, although it might be a clean	
	fuel for electricity generation. Having regard to the nuclear	
	incident in Fukushima of Japan in 2011, he asked about the	
	Government's view on increasing use of nuclear power for	
	electricity generation in future.	

[†] According to the Judgment of the Court of First Instance of the High Court on 14 July 2017, **LEUNG Kwok-hung** had been disqualified from assuming the office of a member of LegCo, and had vacated the same since 12 October 2016, and was not entitled to act as a member of LegCo.
