Dr YIU Chung-yim 姚松炎†

Membership in Environmental-related Committees:

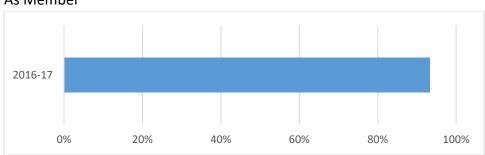

- Panel on Environmental Affairs
- Bills Committee on Protection of Endangered Species of Animals and Plants (Amendment) Bill 2017
- Subcommittee on Marine Parks (Designation) (Amendment) Order 2016
- Subcommittee on Promotion of Recycling and Proper Disposal (Electrical Equipment and Electronic Equipment) (Amendment) Ordinance 2016 (Commencement) Notice 2017 and Product Eco-Responsibility (Regulated Electrical Equipment) Regulation

Voting Record:

8 December 2016: Motion Moved by Hon Chan Han-Pan on "Updating the	
Hong Kong Planning Standards and Guidelines and Increasing Community	
Facilities to Enhance Living Environment" as Amended by Hon Alice Mak,	
Ir Dr Hon Lo Wai-Kwok, Hon Frankie Yick and Hon Andrew Wan	
1 June 2017: Motion on "Promoting 'Hong Kong People Using Hong Kong	
Water' and Protecting Local Resources"	Yes
5 July 2017: Proposed Resolution Moved by Secretary for the Environment	
under the Product Eco-Responsibility Ordinance and the Interpretation	
and General Clauses Ordinance	

Panel on Environmental Affairs Attendance:

As Member

Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20161024	41. Dr YIU Chung-yim enquired if the Administration had	Waste
	made any assessment of the relative weight of different	
	factors, such as the economic cycle and the Government's	

	initiatives to promote food waste reduction at source, which	
	accounted for the undulating trend of the per capita disposal	
	rate of municipal food waste between 2011 and 2015 (Annex	
	A of the Administration's paper). He also enquired about the	
	projected reduction in food waste volume following	
	implementation of OWTF1 and OWTF2.	
20161128	30. Specifically, Dr YIU Chung-yim asked if the quantities of	Waste
	waste plastic disposed of at landfills had declined since the	
	implementation of the Fund in 2015. He quoted the	
	information provided by the Administration in August 2016	
	(LC Paper No. CB(1)1172/15-16(02)) that prior to the launch	
	of the Fund, the quantities of waste plastic disposed of at	
	landfills in 2012, 2013 and 2014 had been on the increase	
	(i.e. 668,000 tonnes, 681,000 tonnes and 736,000 tonnes	
	respectively), due to the declining recovery rates of waste	
	plastics in the same period when the prices and demand of	
	raw plastic materials dropped significantly.	
20161128	32. At the request of Dr YIU Chung-yim , the Administration	Waste
	agreed to provide a comparison of the latest annual quantity	
	(in terms of tonnes) of waste plastics disposed of at landfills	
	after the implementation of the Fund in October 2015,	
	against that of the preceding years from 2012 to 2015.	
20161128	49. Dr YIU Chung-yim was concerned that the requirement	Air
	to use fountain solutions and printing machine cleansing	
	agents with lower VOC contents might have implications for	
	the operation and production costs of the printing industry	
	and thus provide incentives of noncompliances. He asked if	
	there would be any foreseeable difficulties in enforcement	
	and adducing evidence for prosecutions against non-	
	compliances.	
20161219	9. Dr YIU Chung-yim observed that the Town Planning	Waste
	Ordinance (Cap. 131) ("TPO") appeared to have limited the	
	regulatory powers of the Planning Department ("PlanD") in	
	respect of land use to only those areas covered by	
	Development Permission Area ("DPA") plans (or any Outline	
	Zoning Plans subsequently drawn up as their replacements).	
	Mr CHU and Dr YIU urged the Administration to plug the	
	loopholes in TPO by extending PlanD's regulatory control	

	over unauthorized land filling activities on areas outside	
	DPAs, such as South Lantau.	
20161219	11. Dr YIU Chung-yim asked if the Administration would	Waste
	regularly make public relevant land information, including	
	baseline environmental conditions, aerial photos or	
	geological data like metres above the Hong Kong Principal	
	Datum (i.e. mPD level), to facilitate monitoring and detection	
	of illegal land filling activities.	
20161219	31. Dr YIU Chung-yim asked about the estimated	Air
	quantifiable benefits in terms of improvement of air quality	
	and protection of public health as a result of implementing	
	the Euro VI emission standards for newly registered vehicles	
	(except diesel private cars), and California LEV III standards	
	for newly registered diesel private cars in Hong Kong.	
20170123	22. Dr YIU Chung-yim referred to the Director of Audit's	Waste
	Report No. 65 published in October 2015 which revealed	
	that the actual food waste treatment quantity of a pilot	
	composting plant at Kowloon Bay was significantly lower	
	than that reported by EPD, and a recent media report about	
	a food waste recycler at the EcoPark dumping 80% of its	
	collected food waste at landfills. He asked if the	
	Administration would set up a mechanism to engage the	
	public in monitoring the performance of food waste	
	recycling operations.	
20170123	32. Dr YIU Chung-yim expressed concern over the issues	Misc
	arising from the conflicts between land development and	
	nature conservation. Quoting as example that part of the Chi	
	Fu Valley had been set aside for residential development	
	despite the extremely high historical and ecological value of	
	the area, Dr YIU criticized the Administration for neglecting	
	the views of conservationists against the development. He	
	also relayed the disappointment of some members of the	
	advisory committees formed to take forward Hong Kong's	
	Biodiversity Strategy and Action Plan ("BSAP") that the	
20472:22	Administration had not heeded their views and suggestions.	NA.7
20170123	52. Referring to media reports that certain imported WEEE	Waste
	was found disposed on brownfield sites in Hong Kong, Dr	
	YIU Chung-yim considered that the existing control	

enforcement was ineffective. He was worried that illegal import of WEEE would become more prevalent after the permit control on import and export of hazardous WEEE was extended to all regulated e-waste regardless of whether they were classified as chemical/hazardous waste. He suggested that the Administration should, apart from stepping up enforcement, devise other measures to discourage illegal import of hazardous WEEE (and regulated e-waste in future), such as imposing heavier penalties on related offences. 20170224 12. Dr YIU Chung-yim suggested that the Administration should take the lead to procure Euro VI vehicles and to require contractors of Government projects to procure such vehicles, so as to drive market supply of compliant vehicles ahead of implementing the new vehicle emission standards. 20170224 15. Dr YIU Chung-yim enquired about the reasons for not ceasing to accept diesel private cars passing the Euro test for petrol private cars to first-register immediately as this could be done ahead of tightening the statutory limit from California LEV II to LEV III. 20170227 24. Dr YIU Chung-yim shared the view that reducing the FRT concessions on electric private cars would only further dampen public incentives to purchase EVs when EV charging facilities at existing private housing estates were still lacking. 20170227 28. Dr YIU Chung-yim relayed the trade's concern about the difficulties in installation of EV chargers in existing private housing estates, especially in seeking permission from the owners' corporation/property management company to install requisite facilities in common areas of those estates. 20170327 7. Mr CHAN Hak-kan and Dr YIU Chung-yim expressed concern about potential aggravation of fly-tipping as a result of MSW charging, and the difficulties faced by property management companies ("PMCs") in tackling the problem. Mr CHAN, Dr YIU, Mr Kenneth LAU and Mr SHIU Ka-fai enquired about the measures to be taken by the Administration to complement and enforce the implementation of	·		
permit control on import and export of hazardous WEEE was extended to all regulated e-waste regardless of whether they were classified as chemical/hazardous waste. He suggested that the Administration should, apart from stepping up enforcement, devise other measures to discourage illegal import of hazardous WEEE (and regulated e-waste in future), such as imposing heavier penalties on related offences. 20170224 12. Dr YIU Chung-yim suggested that the Administration should take the lead to procure Euro VI vehicles and to require contractors of Government projects to procure such vehicles, so as to drive market supply of compliant vehicles ahead of implementing the new vehicle emission standards. 20170224 15. Dr YIU Chung-yim enquired about the reasons for not ceasing to accept diesel private cars passing the Euro test for petrol private cars to first-register immediately as this could be done ahead of tightening the statutory limit from California LEV II to LEV III. 20170227 24. Dr YIU Chung-yim shared the view that reducing the FRT concessions on electric private cars would only further dampen public incentives to purchase EVs when EV charging facilities at existing private housing estates were still lacking. 20170227 28. Dr YIU Chung-yim relayed the trade's concern about the difficulties in installation of EV chargers in existing private housing estates, especially in seeking permission from the owners' corporation/property management company to install requisite facilities in common areas of those estates. 20170327 7. Mr CHAN Hak-kan and Dr YIU Chung-yim expressed concern about potential aggravation of fly-tipping as a result of MSW charging, and the difficulties faced by property management companies ("PMCs") in tackling the problem. Mr CHAN, Dr YIU, Mr Kenneth LAU and Mr SHIU Ka-fai enquired about the measures to be taken by the Administration to complement and enforce the implementation of MSW charging, including the means to identify non-compliant waste producers, and combat fly-		petrol private cars to first-register immediately as this could

20170327	28. Sharing similar views, Dr YIU Chung-yim and Mr HO Kai-	Waste
	ming opined that MSW charges received from residential	
	buildings could be used to subsidize the relevant	
	PMCs/households which had achieved waste reduction to	
	purchase food waste recycling machines and other recycling	
	facilities.	
20170327	50. Noting that the Government had only earmarked \$150	Misc
	million for taking forward the various initiatives under the	
	Biodiversity Strategy and Action Plan ("BSAP") for Hong Kong	
	from 2016 to 2019, Dr YIU Chung-yim commented that the	
	resource support for promoting BSAP was grossly	
	insufficient. He enquired whether the Administration would	
	consider setting up a dedicated fund on BSAP, or introducing	
	legislative amendments for implementing BSAP initiatives	
	more expeditiously and effectively.	
20170429	22. Dr YIU Chung-yim supported the new SCAs and opined	Climate
	that efforts should be made by the Government and the	
	power companies in putting forward various incentives for	
	promoting energy saving and environmental protection. He	
	asked whether a time-of-use tariff or a progressive tariff rate	
	would be introduced under the new SCAs so as to enhance	
	energy saving by customers, in particular at times of critical	
	peak demand. He also enquired if subsidies would be	
	provided for electrical installations or charging facilities	
	under the new Community Energy Saving Fund.	
20170522	6. Dr YIU Chung-yim expressed concern about the limited	Air
	data collected from the few roadside air quality monitoring	
	stations ("AQMSs") for measuring the levels of roadside air	
	pollution, which might hinder a more comprehensive	
	analysis on district-based air pollution and effective	
	monitoring of the problem. Dr YIU and Mr LEUNG Kwok-	
	hung enquired whether the Administration would make	
	public the statistics collected from roadside AQMSs and	
	install devices such as micro-sensors for enhancing	
	measurement of air pollutants.	
20170522	8. At the request of Dr YIU Chung-yim , the Administration	Air
	agreed to provide information on the use of micro-sensors in	
	Hong Kong, the data collected by such sensors and how the	

	statistics were used for assessment of roadside air quality.	
20170522	18. Mr KWOK Wai-keung, Mr WU Chi-wai, Mr Dennis KWOK,	Air
	Dr YIU Chung-yim, Mr LEUNG Kwok-hung and Mr HO Kai-	
	ming enquired about the Administration's measures, if any,	
	to promote cycling as a mode of green transport in order to	
	reduce roadside emissions. Dr YIU Chung-yim said that he	
	was preparing a proposal with some professionals on the	
	construction of a cycling track on Hong Kong Island, on the	
	basis that other road-users should not be affected by the	
	cycling activities.	
20170522	36. Dr YIU Chung-yim enquired about the feasibility of	Waste
	providing floating refuse collection bins as suggested by	
	some Southern District Council members. He suggested the	
	Administration make reference to overseas experience on	
	the provision and use of such bins.	
20170529	9. Dr YIU Chung-yim said that majority of the deputations	Waste
	were of the view that more should be done to enhance the	
	reduction and recovery of waste at source and to require	
	manufacturers to take responsibility of recovering packaging	
	materials of their products to avoid the excessive use of	
	packaging materials. Dr YIU and the Deputy Chairman asked	
	whether the Administration would consider introducing a	
	PRS on packaging materials so as to provide economic	
	incentives to encourage manufacturers to recover and	
	recycle the packaging materials of their products collected at	
	retail outlets.	
20170529	12. Mr HUI Chi-fung, Dr YIU Chung-yim and Dr Elizabeth	Waste
	QUAT opined that the MSW charges collected should be	
	ploughed back to an account designated for initiatives	
	related to waste management and recycling.	
20170529	18. Dr YIU Chung-yim opined that consideration should be	Waste
	given to offsetting the MSW charges by a corresponding	
	reduction in rates, and incentives should also be offered to	
	encourage reduction in waste disposal.	
20170529	19. The Deputy Chairman, Dr YIU Chung-yim and Dr	Waste
	Elizabeth QUAT enquired about the possible difficulties	
	encountered in taking enforcement actions in future against	
	non-compliances with the requirements under MSW	

	charging, and the relevant enforcement measures to be	
	taken by the Administration to overcome those difficulties.	
	Dr YIU enquired about the measures to be taken to combat	
	illegal disposal of large quantity of waste by parallel traders	
	in the Northern District.	
20170529	20. At the request of Dr YIU Chung-yim , the Administration Wa	
	agreed to provide a written response on the possible	
	difficulties in taking enforcement actions and the relevant	
	measures to overcome those difficulties.	

Bills Committee on Protection of Endangered Species of Animals and Plants (Amendment) Bill 2017

20170707	1.	Dr YIU enquired whether the display of ivory items by a person or
		legal entity in an exhibition with an entrance fee charged (without
		involving any ivory transactions) would be considered as the
		possession of ivory for commercial purpose under the proposed
		ban on ivory trade.

Subcommittee on Marine Parks (Designation) (Amendment) Order 2016

20161122	1.	Dr YIU expressed support for the Amendment Order. Dr YIU and
		the Chairman sought elucidation on the following:
		(a) measures apart from the aforementioned vessel speed limit
		and fishing permit system for protection of the marine ecology in
		BMP, and the relevant monitoring mechanism;
		(b) enforcement of the Marine Parks Ordinance (Cap. 476) and
		MPMRR, including collection of evidence, prescribed penalties and
		number of successful prosecutions in the past; and
		(c) whether the Administration would report the ecological
		baseline information of marine parks to the Legislative Council
		("LegCo") periodically

Subcommittee on Promotion of Recycling and Proper Disposal (Electrical Equipment and Electronic Equipment) (Amendment) Ordinance 2016 (Commencement) Notice 2017 and Product Eco-Responsibility (Regulated Electrical Equipment) Regulation

20170523	1.	Dr YIU suggested that the Administration should review whether
		the development and operation of the government-funded
		WEEETRF might contravene the Competition Ordinance (Cap. 619).

20170602	2.	Mr HUI and Dr YIU expressed concern about potential abuse of
		recycling labels that were not affixed onto REE, and evasion of
		recycling levy and proper disposal of e-waste through purchase of
		REE from overseas websites.

[†] According to the Judgment of the Court of First Instance of the High Court on 14 July 2017, **YIU Chung-yim** had been disqualified from assuming the office of a member of LegCo, and had vacated the same since 12 October 2016, and was not entitled to act as a member of LegCo.
