

Hon YIU Si-wing, BBS 姚思榮議員

Functional Constituency - Tourism

Membership in Environmental-related Committees:

- Bills Committee on Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill 2018
- Subcommittee on Air Pollution Control (Vehicle Design Standards) (Emission) (Amendment) Regulation 2017
- Subcommittee on Air Pollution Control (Volatile Organic Compounds) (Amendment) Regulation 2017
- Subcommittee on Country Parks (Designation) (Consolidation) (Amendment) Order 2017
- Subcommittee on Marine Parks (Designation) (Amendment) Order 2016

Voting Record:

8 December 2016: Motion Moved by Hon Chan Han-Pan on “Updating the Hong Kong Planning Standards and Guidelines and Increasing Community Facilities to Enhance Living Environment” as Amended by Hon Alice Mak, Ir Dr Hon Lo Wai-Kwok, Hon Frankie Yick and Hon Andrew Wan	Yes
1 June 2017: Motion on “Promoting ‘Hong Kong People Using Hong Kong Water’ and Protecting Local Resources”	No
5 July 2017: Proposed Resolution Moved by Secretary for the Environment under the Product Eco-Responsibility Ordinance and the Interpretation and General Clauses Ordinance	Yes
16 November 2017: Proposed Resolution under the Energy Efficiency (Labelling of Products) Ordinance	Yes
31 January 2018: Protection of Endangered Species of Animals and Plants (Amendment) Bill 2017 - Third Reading	Yes
12 April 2018: Motion Moved by Hon Frankie Yick on “Promoting the Popularization of Electric Vehicles” as Amended by Hon Kenneth Leung, Hon Charles Peter Mok, Ir Dr Hon Lo Wai-Kwok, Hon Yung Hoi-Yan, Hon Chan Hak-Kan and Hon Tanya Chan	Yes

Comments Made in Environmental-related Committees:

Bills Committee on Waste Disposal (Charging for Municipal Solid Waste)

(Amendment) Bill 2018

20181205	1. Mr YIU shared the view that the Administration should provide information on the target deliverables of the proposed charging scheme and the relevant complementary measures for public monitoring of the performance of the scheme. He asked whether the Administration had considered directly subsidizing local recycling businesses that were currently unprofitable.
20190218	2. Mr YIU expressed support for the implementation of the proposed charging scheme. He sought the following information: (a) statistics on the performance of the 20 dedicated enforcement teams ("DETs") set up by the Food and Environmental Hygiene Department ("FEHD") for tackling illegal dumping of waste at black spots; (b) the work plan for the installation of surveillance cameras at smart lampposts to monitor fly-tipping activities; (c) when the Administration would ascertain the enforcement manpower required for implementing the proposed charging scheme; and (d) what actions would be taken by the Administration if a tourist had been found committing an offence under the Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill ("the Bill") (if it was passed). 3. Mr YIU asked whether a tourist should use a DB for disposal of refuse including bagged refuse (e.g. food waste and containers after the consumption of take-away meals) at LCs in public places under the proposed charging scheme. 4. Mr YIU suggested that the Administration should consider offering rewards, such as free DBs, to encourage the public to more proactively practise waste reduction and separation. The Administration advised that it was reviewing the reward systems being adopted at Community Recycling Centres and Community Green Stations, with a view to improving the systems for incentivizing the practice of waste reduction and resource recovery.
20190415	5. Mr YIU considered that the Administration should: (a) provide statistics on the recyclables collected at Community

	<p>Green Stations ("CGSs"), collection points operated by non-government organizations ("NGOs") and the Government's contractors respectively; and</p> <p>(b) evaluate the effectiveness of NGO collection points by comparing the quantities of recyclables recovered from the areas concerned before and after the setting up of those collection points, with a view to determining whether the Government or NGOs should play a bigger role in the collection of recyclables in the community in future.</p>
20190430	6. Mr YIU suggested that the Administration should take the lead in setting up reward schemes to encourage public participation in resource recovery.
20190507	7. Mr YIU suggested that the Administration should launch a programme for CRCs to offer monetary rewards to scavengers to incentivize the collection of recyclables of low economic value.
20191111	8. Quoting paragraph (c) of the Administration's written response to the list of follow-up actions arising from the meeting on 30 April 2019 (LC Paper No. CB(1)1250/18- 19(01)), Mr YIU opined that as it was difficult for singleblock buildings and "three-nil buildings" to participate in the Source Separation of Waste Programme, the Administration should devise new measures (such as a reward system) to promote resource recovery in such buildings.

Subcommittee on Air Pollution Control (Vehicle Design Standards) (Emission)
(Amendment) Regulation 2017

20170307	1. Mr YIU urged that the Administration should closely monitor the supply of Euro VI DCVs and strengthen training for vehicle mechanics.
20170320	2. Mr YIU reiterated that the Administration should consider increasing the ex-gratia payments under the scheme to phase out pre-Euro IV diesel commercial vehicles ("DCVs") to encourage DCV owners to switch to Euro VI models early.

Subcommittee on Air Pollution Control (Volatile Organic Compounds) (Amendment)
Regulation 2017

20171107	1. The Chairman asked whether warnings would be given to offenders before prosecutions. The Administration replied in the negative.
----------	--

	<ol style="list-style-type: none"> 2. Noting that the test methods adopted by the United States Environmental Protection Agency and SCAQMD (i.e. Method 24 and Method 303) were prescribed in the Amendment Regulation for the determination of VOC contents of newly regulated products, the Chairman enquired whether Cap. 311W would need to be amended if the organizations concerned updated the test methods in future. 3. Dr LEUNG and the Chairman asked how the list of exempt compounds for newly regulated products was determined. 4. The Chairman and Dr LEUNG further enquired if the Administration would commission local researches with a view to adjusting the list of exempt compounds to Hong Kong's conditions.
--	---

Subcommittee on Marine Parks (Designation) (Amendment) Order 2016

20161122	<ol style="list-style-type: none"> 1. Mr YIU expressed support for the Order. He sought details on the control of different types of vessels (e.g. dolphin watching vessels) and activities in marine parks, and how the Administration would tackle pollution caused by oil spill from vessels in marine parks.
