Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20170429	46. Mr Jeffrey LAM pointed out that the physical environment of Hong Kong indeed posed constraints on RE development. In considering the installation of solar panels on buildings, any possible impact on structural safety of the buildings should be properly evaluated beforehand. Apart from the public participation, the Government should have a role in RE development in Hong Kong.	Climate
20170429	59. In considering the way to balance the affordability and environmental protection on power supply, Mr Jeffrey LAM considered that using more nuclear power might be an option that the Administration should consider further. Although there might be safety concern on nuclear power, he said that the technique adopted for building nuclear plants was much advanced nowadays. He also pointed out that electricity bought from the Mainland, if any, might be generated from a mix of fuels, including nuclear energy.	Climate
