

## Dr Hon Priscilla LEUNG Mei-fun, SBS, JP 梁美芬議員

Geographical Constituency - Kowloon West

Business and Professionals Alliance for Hong Kong

Kowloon West New Dynamic

### Membership in Environmental-related Committees:

- Panel on Environmental Affairs
- Subcommittee on Air Pollution Control (Volatile Organic Compounds) (Amendment) Regulation 2017
- Subcommittee on Promotion of Recycling and Proper Disposal (Electrical Equipment and Electronic Equipment) (Amendment) Ordinance 2016 (Commencement) Notice 2017 and Product Eco-Responsibility (Regulated Electrical Equipment) Regulation

### Voting Record:

8 December 2016: Motion Moved by Hon Chan Han-Pan on “Updating the Hong Kong Planning Standards and Guidelines and Increasing Community Facilities to Enhance Living Environment” as Amended by Hon Alice Mak, Ir Dr Hon Lo Wai-Kwok, Hon Frankie Yick and Hon Andrew Wan	Yes
1 June 2017: Motion on “Promoting ‘Hong Kong People Using Hong Kong Water’ and Protecting Local Resources”	No
5 July 2017: Proposed Resolution Moved by Secretary for the Environment under the Product Eco-Responsibility Ordinance and the Interpretation and General Clauses Ordinance	Yes
16 November 2017: Proposed Resolution under the Energy Efficiency (Labelling of Products) Ordinance	
31 January 2018: Protection of Endangered Species of Animals and Plants (Amendment) Bill 2017 - Third Reading	Yes
12 April 2018: Motion Moved by Hon Frankie Yick on “Promoting the Popularization of Electric Vehicles” as Amended by Hon Kenneth Leung, Hon Charles Peter Mok, Ir Dr Hon Lo Wai-Kwok, Hon Yung Hoi-Yan, Hon Chan Hak-Kan and Hon Tanya Chan	Yes

## Panel on Environmental Affairs Attendance:

As Member

## Comments Made in Environmental-related Committees:

Panel on Environmental Affairs

20170424	26. <b>Dr Priscilla LEUNG</b> urged the Administration to implement a set of comprehensive odour control/mitigation measures and apply for the necessary funding in support of a long-term plan of five to 10 years to resolve the problems at source and to promote water-friendly culture and activities. She stressed that substantial financial and technological inputs were required for implementing a comprehensive plan to resolve the strong stench problem at the harbourfront. She enquired about the possibility of conducting cross-bureau projects to be led by the Environment Bureau for improvement of the harbourfront pollution and odour problem.	Water
20171012	11a. Improving the water quality in Hong Kong: <b>Dr Priscilla LEUNG</b> requested the Administration to provide details on the policies and measures to be implemented in the light of the findings of the consultancy study on further enhancing quality of coastal waters of Victoria Harbour commissioned by the Administration, and to explore how to reduce odour nuisance of the Victoria Harbour waters through joint efforts of the concerned districts.	Water
20171012	11c. Existing policies on bicycles and promoting bicycles as a mode of transport: Mr HUI Chi-fung and <b>Dr Priscilla LEUNG</b> suggested that the Administration should advise on the timing for reverting to the Panel on the subject.	Air

20180326	<p>34. <b>Dr Priscilla LEUNG</b> sought details on the Administration's follow-up actions to address the environmental, hygiene and other problems arising from the operations of recyclers in Sham Shui Po, including (a) the number and working hours of additional patrol teams, and frequency of enhanced patrols, (b) the number of enforcement operations (including joint enforcement operations) carried out in recent years, (c) additional manpower, if any, allocated to the relevant government departments for the above purposes, (d) assessment of the effectiveness of the above enforcement actions, and (e) the Administration's plan, if any, regarding the provision of spaces for temporary storage and loading/unloading of recyclables in the district.</p>	Waste
20190325	<p>29. <b>Dr Priscilla LEUNG</b> considered that the Environment Bureau ("ENB")/Environmental Protection Department ("EPD") should strengthen coordination with other bureaux/departments, including the Marine Department, in tackling air pollution nuisances caused by marine incidents such as oil spillages and leakages of chemical substances.</p>	Water
20190325	<p>38. <b>Dr Priscilla LEUNG</b> and the Chairman expressed support for the Administration's proposal [to improve water quality]. Dr LEUNG welcomed the construction of dry weather flow interceptors ("DWFIs") (which intercepted and diverted polluted dry weather flow from a stormwater drain/channel into the sewerage system during non-rainy days for treatment) in more districts to improve the water quality in coastal areas and alleviate the associated odour problems. Nevertheless, as the benefits of DWFIs were limited, she considered that the Administration should formulate a comprehensive strategy for improving the water quality of Victoria Harbour, which should cover short, medium and long-term measures. In this connection, she enquired about the progress of a relevant consultancy study commissioned by EPD, and whether the Administration would consider the application of biological treatment in tackling near shore water pollution.</p>	Water
20191028	<p>51. <b>Dr Priscilla LEUNG</b> expressed appreciation for the Administration's efforts in mitigating nearshore odour</p>	Water

	problems, especially in the vicinity of the Hung Hom Promenade. However, she observed that the odour problems persisted in some other coastal areas, such as Tsim Sha Tsui Promenade. She asked about the reasons for that and the latest developments in enhancing the quality of coastal waters, including whether the wider application of hydrogel would be considered, the progress of rectifying foul water pipe misconnections, and whether biochemical odour removal methods would be introduced.	
20191216	34. <b>Dr Priscilla LEUNG</b> said that it might be technically difficult to quantify the effect of air quality improvement measures on public health. She sought information on the follow-up actions taken by Administration in response to the motion passed by the Panel on 25 March 2019, which requested the Administration to, among other things, withdraw the proposal of increasing the number of allowable exceedances for the 24-hour AQO for PM2.5 and tighten the AQOs for PM10 and O3.	Air

Subcommittee on Air Pollution Control (Volatile Organic Compounds) (Amendment)  
Regulation 2017

20171107	<ol style="list-style-type: none"> <li>1. <b>Dr LEUNG</b> sought justifications for setting different levels of penalties for contravention of the new sections 16M, 16N and 16O to be added to Cap. 311W.</li> <li>2. <b>Dr LEUNG</b> and the Chairman asked how the list of exempt compounds for newly regulated products was determined.</li> <li>3. The Chairman and <b>Dr LEUNG</b> further enquired if the Administration would commission local researches with a view to adjusting the list of exempt compounds to Hong Kong's conditions.</li> </ol>
